Abrasive Mounted Stones

COMPOSITES FINISHING AND POLISHING (Shofu)

Designed for finishing and polishing all types of composites.

Dura-White aluminum oxide stones for finishing
CompoSite silicone points are impregnated with aluminum oxide for polishing
CompoSite Fine silicone points are impregnated with zirconia for fine polishing
Contra-Angle kit
Your choice of a sterilizable bur block or plastic kit
Use CompoSite Technique kit for: composites

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

In the dental practice use Dura Green (Coarse Stones) for Contouring\Finishing and Polishing of porcelain, composites, precious thick metal alloys, Glass Ionomers, Precious alloys and amalgam.

In the dental laboratory Contouring and finishing porcelain, indirect composites and metals Dura-Green Wheels (silicon carbide grit) are designed for fast contouring and finishing of porcelain and precious alloys

Chipless Wheels (silicon carbide grit) are for fine finishing of porcelain and precious alloys. Grit size is between Dura-Green and Dura-White Stones

Cut- Off Disks are resin-bonded and are designed for cutting-off sprues and contouring metal crowns

SpruCut Wheels (silicon carbide grit) are heatless wheels for gross reduction of cobalt-chrome and nickel alloys, (i.e., trimming of cut-off sprues).

Articulator Paper

ARTICULATING PAPER (Accufilm)

- Parkell Accu-film is a super-thin articulating film of just 21 microns thickness (1/ 1500 inch).
- It does not produce false markings. It works on wet, saliva-contaminated occusal surfaces, but is not brittle.
- It is very tear-resistant, and has virtually no elastic memory.
- Accu-film I is single sided supplied in 280 pre-cut strips 7/ 8" wide, in black, red and green colours.
- Accu-film II is double sided, supplied also in 280 strips, in colours red / red, black / black, and black / red.

ARTICULATING PAPER (Bausch)

- Since 1953, Bausch KG has specialized in the manufacture of special articulating occlusion test materials designed to represent occlusal proportions on the masticatory surfaces as true to nature as possible.
- From the outset, the founders of the company, dentists Dr. Jean Bausch and Dr. Hans Bausch, recognized the need to use pressure-sensitive articulating paper in order to present all the different masticatory forces in various colors.
- The principle of progressive color transfer remains an important method for the accurate detection of high spots.

BOOKLETS

Autoclaves

Units

ECCO-106900 Autoclave Euro B Standard 16L

US$ 2,309.77

European Class and Standard
- Adopting European with thermal vacuuming and drying fuction, it can be used for A type hollow instruments and solid instrument.
- Thermodynamic vacuum guarantees elimination of cold air from cavity and makes sure of perfect saturation of water draining.
- Three sterilizing water quantity selections are respectivily different material, which embolies the individualize serve.
- Automatic malfunction detecting system makes easy maintaining**.**

TECHNICAL
- Model: TDK4210A 16L
- Voltage/Power: 220V/950W
- Chamber Size: 170x320
- Outside Size: 345x530x340MM
- Net Weight: 29 kg

ECCO-106901 Autoclave Euro B Standard 18L

US$ 2,309.77

European B Standard
- Adopts European B Standartd, with 3-times pre-vacuum preceding vacuum drying.
- **Vaccum measurement reaches 0.80 bar**.
- It sterilizes and sanitizes miscellaneous packed or unpacked medical instruments, whether solid or A type hollow, whether with milti-apertures or inset pipes.
- It effectively rid from every hollow area of any hollow instruments, such as hand piece, making sure that water steam reaches every corner.

TECHNICAL
- Model: TDK4220A 18L
- Voltage/Power: 220V/1400W
- Chamber Size: 200x360

ECCO-106902 Autoclave New Euro Class B 18L

US$ 2,519.75

European NEW B Standard
Description:
Automated Pressure Steam Sterilizer is designed and made for places that need constant sterilization, such as clinics, medical departments, laboratories, etc. Being automatically controlled by a microprocessor and with a people-friendly interface, this sterilizer is safe, reliable and easy to operate. The different parameters and conditions in the operating process are displayed dynamically on a digital screen. Its automatic detection of malfunctions, protection of over-heating and excess pressure ensure the reliability of the sterilization. With a built-in condensed water collector dispelling the need to let off exhaust steam, this product is safe and environment-friendly.

Features:
- Printer option (Printer sold separatley). Item #106903
- Adopts European B Standartd, with 3-times pre-vacuum preceding vacuum drying.
- **Residual humidity is < 0.2; vaccum measurement reaches 70 bar.**
- It sterilizes and sanitizes miscellaneous packed or unpacked medical instruments, whether solid orA type hollow, whether with milti-apertures or inset pipes.
- It effectively rid from every hollow area of any hollow instruments, such as hand piece, making sure that water steam reaches every corner.
- It is installed with BOWI & DICK which measures the penetration of water steam.
- Mini printer can be attached to record the process of Sterilizer
- Imported ULVAC double heads vacuum pump, long life usage, more stable and relible.
- 8 Programs for choice.
- Multilevel pulse vacuum.
- Completely Computer Control.
- With user-defined / self-inspection program.

Accessories
-Drainpipe 1
-Door Wrench 1
-Instrument Tray 3
-Power Cord 1
-Rack for Instrument Tray 1

ALPHA-EASE

ALPHA-EASEDESENSITIZER Alpha-Ease (GLUMA) is a Hema/Gluteraldehyde (Glutaraldehido) desensitizer indicated for use on sensitive cavity preparations prior to the application of restorative material.
It provides a physiological seal within the dentinal tubules by polymerization with the proteins in the tubules.
Its formula of 5% glutaraldehyde and 35% HEMA (hydroxyethyl methacrylate) in water is used to help control both hypersensitive dentin and reduce the incidence of post-operative sensitivity in restorative dentistry procedures. It' s also useful as a cavity disinfectant, a rewetting agent and an adhesion promoter (when combined with most dentin bonding systems).

Research indicates that when used as a desensitizer under bonded restorative material, Gluma has no significant influence on bond strength, unlike some other liners, which contribute to a decrease in bond strength .

GLUMA provides virtually immediate relief from pain caused by hypersensitivity and is formulated with an antimicrobial to prevent microleakage.

SHOFU- 111965 Niveous Liquid Dam Refill Kit

US$ 25.60

Shofu - Niveous Liquid Dam Refill Kit Qty 2- 3g syringes Contains: 10 Bleach Ampules; 1 ml Eaxh- 30 -Booster- Brushes- 3 ml Syringe Niveous Liquid Resin Dam Material- Instruction Booklet (Mfg# 1294)**Shofu - Niveous Liquid Dam Refill Kit # 1294**

New chemistry provides an improved resin dam that remains securely placed for maximum patient comfort.

Does not run when placed, eliminating multiple light curing applications
Does not produce heat when light cured
Remains flexible after curing for easy removal

Contains:

(2) 3g syringes

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

ECCO-101380 Led Bleach. Unit YS- TW-A 6000

US$ 497.65

Teeth Whitening Unit ECCO TW-A
1. Bleaching Mode:
ECCO TW Teeth Whitening Unit is a new type whitening technology, based on the condition of strong blue LED light and whitening kit accelerant.
By the character of nanometer pellet on the surface and Light decomposition, activate the most H2O2 in short order on low or normal temperature. This produce mass oxygen atomy permeate teeth and decompose color molecule, to meet the effect of teeth whitening.

2. CHARACTER
1. The specifical wave length and high density light speed catalyze whitening gel.
2. 6 powerful LED tubes emit a high intensive cold blue light with an output at 6000 MW/CM2
3. Special design, innocuous silica gel muzzle, make sure stopping intersectional infection.
4. The new model of power supply make sure steady power output and longtimecontinuous working even in some cities and places with mutative voltage.
5. Time display could shows treatment time to help dentist master treating time and progress and reduce the waiting time of patient.

3. TECHNICAL PARAMETERS
1. Power supply: AV110-240volts ,50HZ
2. Power: 60W
3. Light size: 30*80mm2
4. Power density: >6000MW/CM2
5. Light timing: 0-20 minutes non Stop
6. Power instability + - 1%
7. Working method: time output & continuous working
8. Mouth Coupling: polyester monowave

Bleaching products used with this unit :

- LUMAWHITE - 101484 - Lumawhite Patients Kit - bleaching kit 12 patients 35% Perox

Bonding Agents
Dentine sealer

PULPDENT- 039-POLY Dentin Seal Kit 4x1.2ml syin — US$ 31.25

Polyamide Dentin Sealant Kit

- 4 x 1.2ml syringes + 8 Pre-Bent Tips [P# POLY]
- It seals and protects the dentinal tubules
- It forms a thin biocompatible physical barrier that seals the dentin and protects the pulp against acids and other irritants
- It is virutally impenetrable by acids -cements - resins - and dental restoratives
- It also serves to insulate against thermal shock and to protect against mircoleakage

Bonding Agents
Drying Agent

PULPDENT- 101499 Dry-Rite Agent — US$ 15.66

- Drying agent contains ethyl alcohol with an organic solvent
- [P# DRY] - complete chemical drying of dental surfaes before applying pit and fissure sealants
- silane - and in all clinical situations where residual moisture may effect bonding and cementation
- It dispenses one drop at a time from a syringe or bottle - dries immediately

ECCO-567020 Drying Agent 4 x 1.2cc Syringe — US$ 21.74

Drying Agent Mini Dental Kit of 4 x 1.2cc SyringeS + 20 tips - [J# - 567020]

- Use drying agent after etching pits and fissures to be certain that all moisture is eliminate before bonding
- Apply to fissuresand allow to air dry or use syringe to dry

Bonding Agents
Enamel & Dentine Bonding

ALPHA BOND LC / DUO

ALPHA-BOND ADHESIVE is a Single Component Acetone Based Adhesive with a **Dual Cure** Activator (**purchase separately**) formulated to bond to multiple substrates for both direct and indirect bonding procedures.

It contains the hydrophilic monomer PMGDM that allows penetration into the tubules, intertubules and peritubuler dentin.
For a single step light cure adhesive, use the bottle marked adhesive. By combining the dual cure activator with the adhesive, you can confidently bond to self cure composites and areas inaccessible to light.

SHOFU- 111416 Beautibond Kit Unit Dose 50pk — US$ 108.59

Shofu - Beautibond Kit # 1782
Seventh-generation, one step, self-etch adhesive with 6-MHPA, dual adhesive to enamel and dentin.

Bond strengths comparable to leading multi-component brands
Single coat for shorter working time
Efficient 30 second application
5m film thickness
HEMA-free

Convenient unit dose, no mixing

The strength and durability of BeautiBond has been validated through in vitro studies and multi-site clinical studies as well as SEM and TEM observation.1-3 n BeautiBond, which contains 6-MHPA, has bond strength comparable to that of leading multi-component bonding systems. n BeautiBond delivered outstanding results in worldwide clinical trials. n BeautiBond demonstrated comparable bond strength to multi-component Clearfil SE Bond before and after thermocycling with a simplified bonding procedure

BEAUTIBOND # 1782
BeautiBond Unit Dose 0.1mL

KURARAY- 113694 Clear SE Bond Kit

US$ 176.00

Kuraray- Clear SE Bond Kit #1970

Kuraray, after inventing the self-etching technique with CLEARFIL LINER BOND 2 in 1993, has surpassed their universally accepted total-etch technology with a new product -- a new-generation self-etching primer and bonding system called CLEARFIL SE BOND. CLEARFIL SE BOND is a simplified, light-cure bonding system containing a water-based primer. The procedure time with CLEARFIL SE BOND is significantly reduced, while providing enhanced bond strength and sealing properties -- and, it can be used with all light-cured restoration. The unique "Outer Case" delivery system allows direct finger control of the contents.

Features & Benefits
Secure, fast and easy to use
One bottle of self-etching primer for effective one-step conditioning of cut enamel and dentin without rinsing
No excessive decalcification
Intraoral repairs of porcelain and composite with additional use of CLEARFIL PORCELAIN BOND ACTIVATOR
Effective marginal sealing for protection against micro-leakage
High bond strength to dentin, enamel, metals and porcelain
Indicated for composites, compomers

KA CLEARFIL SE BOND Kit
1 Primer 6ml
1 Bond 5ml
2 Brush holders
1 Mixing dish
1 Light-blocking plate
1 Outer Case
2 Disposable brush tips (50 pcs.)

FL BOND II (Shofu)

Sixth Generation, Self-etching, 2 Steps, Dual Cure to enamel and dentin with S-PRG.

A self-etching, fluoride releasing bonding system.

-S-PRG (Surface Pre-Reacted Glass Ionomer) technology that fully reacts with alumina silica glass particles
-High levels of fluoride release and recharge
-Excellent bonding to tooth structure
-Bonds any composite to enamel and dentin for Class I-V and cervical erosions
-Self-etching saves time and reduces post-operative sensitivity
-Total procedure time: 35 seconds
-High level of radiopacit

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

GC-FUJI - 108-002277 G-Bond Kit

US$ 124.00

GC-Fuji-G-Bond Kit (Mfr#002277) Contains: One 5 ml bottle of G-BOND- one package of 50 Micro-tips- one Micro-tip handle- one dispensing dish and technique card. [p G 05-01-05]**GC-Fuji-G-Bond Kit #002277**

7th Generation Bonding One Component, One Coat Bonding System for Light-Cured Composites.
G-Bond is a new revolutionary 7th generation (single component) adhesive that takes the guesswork out of bonding.

The unique combination of phosphoric acid ester monomer and 4-MET adhesive technology creates superior atch and adhesion to enamel in addition to providing chemical and mechanical seal to dentin - referred to as the Nano Internation Zone.

Contains:
1-5ml bottle
1 pkg of microtips with handle
One dispensing dish.

ONE COAT BOND (Whaledent)

Bonding Agents
Oxigen Barrier

ECCO-567140 Oxygen Barrier 4 x 1.2cc syrin — US$ 16.31

Oxygen Barrier Mini Dental kit of 4 x 1.2cc syringes + 20 tips

- Oxygen barrier prevents the formationof the air - inhibiton layer
- Trim resins and adhesives cements to margins and exact contours with handinstruments - apply material and then light cure -

Bonding Agents
Porcelain Bonding (Silane)

PULPDENT- 101497 Porc Prep Etch Kit 4x2.1ml syr — US$ 37.00

- 1 porcelain etch gel
- 1 pulpdent silane bond enhancer
- 1 kooldam
- 1 dry rite drying agent
- 4 dropper tips
- 8 dispenser needles
- This is a complete kit for preparing porcelain veneers and inlays and fractured porcelain teeth for bonding [P# PPK]

PULPDENT- 101498 Porcel Etch Gel 4x2ml syr — US$ 36.00

Porcelain Etch Gel - 4 X 2ML Syringes + 8 pre bent tips - [P# PEG]

- 9.6% hydrofluoric acid for etching porcelain veneers and inlays and fractured porcelain surfaces prior to bonding
- This superior quality porcelain etch gel will not stain composties or resin cements
- It is thixotropic - stays where placed - washes off easily - and etches porcelain in only 2 minutes -

PULPDENT- 101493 Restoration & PFM Repair Kit — US$ 119.63

Pulpdent- EMPFM Restortation & PFM Repair Kit # EMPFM

- Seal-n-Shine -Opaquer - Porcelain Etch Gel - Kool Dam - Light cure - floride releasing - bonds chemically & micromechanically to moist teeth.
- Eliminates chipping - cracking - and pitting at the margins
- Solves big problems fast - no bonding agents required

Includes :
1.2ml syringe
5pk First-Coat

PULPDENT- 101500 Silane Bond Enhan 4x2.1ml syr — US$ 41.48

Silane Bond Enhancer 4 x 2.1ml syringes + 8 dropper tips - [P# SIL]

- For bond enhancement of composites - resin cements - and other organic resins to porcelain
- A asingle component material which enhances bonding values when applied to porcelain after etching and drying
- Dispenses one drop at a time from the syringe

We carry the complete Renfert line of products.

ECCO-567090 Silane Kit 2 x1cc Syrin

US$ 16.91

Silane Mini Dental Kit of 2 x1cc Syringes + 20 tips

- After etching porcelain restoration or composite to be repaired with hydrofluoric and eutralizing
- Apply silane and air dry
- Silane increases the flow of resins and aids bonding strength

Burs Carbide

Bur Accessories

ALUMINIUM BUR BLOCK HOLDER (Solodent)

The 15-Hole Aluminum Bur Block keeps your burs tidy all the way from tray set-up to final sterilization. Hinged lid snaps into place and keeps burs secure during ultrasonic cleaning and autoclaving. Holds 15 FG burs.
The Bur Block is a product that helps in organizing, storage, transportation and sterilization of dental burs. Produced using resistant material which allows autoclaving.

- Autoclavable
- Available in red, blue, silver and black.

Contains: 1 block

Shofu - Classic Plastic Veneer Kit 0300 Contains: Regular Grit FG diamond point- Fine grit FG diamond points 2 T&F Hybrid points 3-CA Dura White stones (FL2 and RE1 and CA CeraMiste Standard- Ultra and Ultra 2 (3 knifes - 3 wheels and two cups)**CLASSIC PLASTIC CA KIT #PN 0300**

Use for all aspects of porcelain veneer placement.

Contra-Angle kit
Available in a plastic kit
Use Porcelain Veneer kit for : porcelains

CONTAINS:

Regular-grit FG diamond point
2 Fine-grit FG diamond points
3 T&F Hybrid points
CA Dura-White stones (FL2, RE1)
CA CeraMistStandard
Ultra
Ultra II (3 knifes, 3 wheels, 2 cups)

Us Dental Depot is an Authorized SHOFU Dealer in US.

DIAMOND BURS (Shofu)

Robot Points FG Diamond rotary instruments for cavity and crown preparation.

Burs are classified by shape, not by grit
If you need just the SUPER FINE for example, on the product search input " SHOFU SUPER FINE "
You will get this selection, with all the SUPER FINE burs, highlighted in YELLOW.

If you need SUPER FINE and TAPERED shape, input " SHOFU SUPER FINE TAPERED "
you will be directed to this selection and will find highlighted in YELLOW all the burs that are SUPERFINE and TAPERED, remaining at sight all the other shapes and grits but in regular color.

Regular Grit (R) - no color band
Coarse Grit (C) - Green Color Band
Super Coarse (SC) - Black Color Band
Fine (F) - Red Color Band
Super Fine (SF) - Yellow Color Band

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

ECCO- 113495 Ecco-Cam 5 Wireless Mem + LCD

US$ 415.00

Ecco-Cam-5 Wireless Intraoral Camera - 2 megapixel - + TF Memory card + 2.5in LCD Screen
Camera with TF (+ SD ADAPTER) card, Video output directly ON 2.5in Screen , or connect with computer through USB card reader.
You can also stream video simultaneously with the wireless receiver (sold separatedly)
Reliable light souce with 6 White LED lights
Easy to operate and convenient to carry, the images display on 2.5 inch LCD and there is no cable attached or maximum distance allowed from the screen.
Adjust the Brightness and contrast in the LCD directly.

5 Buttons to control:
Freez, Save, Previous picture, next picture and delete.

Differente kinds of capture angle to display clear pictures, easy operation and automatically focus, camera can be used without docking station, pictures saved permanent.
High power capacity lithium battery, do not need to connect with other adapter.

The box includes :
Main handpiece (Camera)
2.5 Inches LCD
Wireless transmitter (and power source for ther camera)
Ac Adapter
TF memory card
USB card reader (your conection to the PC)

Advantage of the unit:
1- The machine has 2.5 Inches LCD already incorporated .
2 -TF memory card for memory 500 PCS picture.

* Wireless Receiver is available upon request - 90,00 usd- (# 114067)

ECCO- 114226 Ecco-Cam 6 Wireless 8in LCD

US$ 620.00

Ecco Cam 6 Wireless Intraoral Camera 8inches LCD

Specifications:
1- Intra oral camera and 8 inch LCD integrated
2-Camera with TF card inside. Can save more than 500 pictures.
3-Adjusts brightness, contrast and color in LCD freely
4-Flexible LCD can be 45- Degree adjustment.
5-Video Output Function.
6-Replace tradicional LCD on dental chair.
7- Collocate with gih-quality intraoral camera. HIgh resolution and easy to operate.
8-Suitable for PAL or NTSC system either wired and wireless.

ECCO-105800 Int.Oral Cam 1.3Mp Comps + USB

US$ 240.00

ECCO-Cam- 1.3mega pixels Comps + Usb
Intraoral Camera - Includes software
This camera is design with dentist in mind. You can put this mini camera intothe camera's focus and form the picture automatically.

DINE - 113528 Led background Photography

US$ 899.00

Dine ILed background Photography Dine-s new LED Light Panel is designed to completely eliminate shadows in portrait and profile photography. The high intensity light panel provides a constant light making it functional with virtually any digital SLR camera flash -eliminating back flash delay and synchronization issues.**Say Goodbye to Background Shadows!**
Dine's new LED Light Panel is designed to completely eliminate shadows in portrait and profile photography. The high intensity light panel provides a constant light making it functional with virtually any digital SLR camera flash, eliminating back flash delay and synchronization issues.

LED Light Panel- Shadowless Portraits and Profiles
Dines new LED light panel is lightweight and extremely thin allowing it to be placed anywhere in the office. The Dine LED Light Panel weighs 8 lbs with lighted dimensions of 33? x 21 and a thickness of 1 . Unlike slave light boxes that need to be built into walls or occupy office space by extending outward, the flat light panel requires no elaborate installation and requires nothing more than wall space. The panel runs on ac power. Also included is a wireless remote control that allows users to control light intensity for brighter or a more subtly lit background. The panel is designed to create esthetically pleasing portraits by eliminating all background shadows. Dines NEW LED panel is available with white and blue backgrounds.

Dines PixelEase is powerful dental software designed to make using digital images on your practices computer easy. The system consists of three components:Photo Base, Photo Studio and Photo Printer. Each component is linked together at the touch of button. This powerful imaging software is designed to rival the highend dental imaging softwares but at a fraction of the price. Plus lifetime telephone support is included for free.

ECCO-106944 Wireless Intraoral Cam 2 Mp

US$ 310.00

Ecco-Cam-3 Wireless Intraoral Camera #106944

- 2 MEGA PIXELS WIRELESS USB
- USB conection (conct to computer , not to TV)
- Video Stream to Monitor
- Uses software (included)

FEATURES
- Capture teeth images of patient and transmits into computer on wireless LAN.
- Without any USB cable, lets the dentist easily capture, save images .
- Freeze image and save them for posterior control
- The Image quality and picture will not be interrupted during operation .
- 4 Transmision channels sellection .
- Fast Charger
- Transmiter conects to regular USB
- CD with software included - (save customers name, and re call the pictures later)
- Antifog lenses

SPECIFICATION
Image Sensor - 1/4 Sony CCD
Image Resolution - 2.0 mega pixels
Led Lamp (ilumination) - 6pcs white (5600K)
Angle of Vision - 70 degrees
Image Resolution - 640 x 480 pixels
Frequency - 5725~5875 MHz
Transmit Distance - About 10 meters
Receiving Sensitivity - 95dB

1 year warranty

ECCO- 113494 Wireless Intraoral Cam 2 Mp+SD

US$ 430.00

Ecco-Cam-4 Wireless Intraoral Camera - 2 megapixel - + 2gb SD card #113494

HIgh Quality images, simple operation and installation. Light and easy mobility, non-spherical lens, superwide automatically adjustin-focus lens. Hand piece holder with automatic power off function. To use wireless intraoral camera, you can caPture teeth images of patient and then transmit into computer through wireless LAN.

Without cable, it let dentist easily operate it, save images more quickly and conveniently.

- 2 MEGA PIXELS WIRELESS USB
- USB conection (conct to computer)
- Video conction (to TV)
- Video Stream to Monitor or TV
- Uses software (included)
- Saves picures on SD card to be placed later on computer.
- REMOTE CONTROL !!!

FEATURES
- Capture teeth images of patient and transmits into computer on wireless LAN.
- Without any USB cable, lets the dentist easily capture, save images .
- Freeze image and save them for posterior control
- The Image quality and picture will not be interrupted during operation .
- 4 Transmision channels sellection .
- Fast Charger
- Transmiter conects to camera
- Receiver conects to Dosking station
- Dcking station conects through USB or Video or Super video t Screen
- CD with software included - (save customers name, and re call the pictures later)

- Antifog lenses

BOX CONTAINS :
Camera
Super Cam Cable
Sheaths
Cd Software
Transmiter
Receiver
Doscking station
Usb Cable
VGA cable
IR cable
Remote Control
DC transformer
Disk

SPECIFICATION
Image Sensor - 1/4 Sony CCD
Image Resolution - 2.0 mega pixels
Led Lamp (ilumination) - 6pcs white (5600K)
Angle of Vision - 70 degrees
Image Resolution - 640 x 480 pixels
Frequency - 5725~5875 MHz
Transmit Distance - About 10 meters
Receiving Sensitivity - 95dB
-High Resolution
-High Sensivity
-High Performance
-Compact Size, easy to use and focus.

EMBRACE™ WetBond™
Seal-n-Shine
Light Cure • Finishes and Polishes Restorations • Seals Composites and Margins

- *Eliminates final finishing and polishing steps*
- *Does not alter occlusion or anatomy*
- *Bonds to the moist tooth*
- *Cures with all lights*

EMBRACE™ WetBond™
Pit & Fissure Sealant
Light Cure • Fluoride Releasing • Radiopaque

- *Contains No Bisphenol A and No Bis-GMA*
- *Wet-Bonding - Moisture tolerant resin chemistry*
- *Tooth Integrating - Seals against microleakage*
- *Margin-free - No chipping, pitting, or staining.*

DINE - 113527 PENTAX Intra-Oral Photography

US$ 795.00

Dine Intra-Oral Photography modifier without a ring Flash - Full package **Dine Digital Solution Camera Kit**

The Dine Digital Solution Camera/Accessory Kit -- Full Package
Camera/Accessory Kit including - Full Package

Our simplest intra-oral camera ever!! featuring a Dine modified small format digital camera. The camera weighs under a pound and fits into the palm of almost any hand. The camera is capable of accomplishing the full range of dental photography with ease from the 1:1 extreme close-up of a posterior quadrant to anterior, lateral, and all mirror photos including occlusals and linguals. The camera also works great for portraits and personal photography.

The latest model is waterproof and shock proof making it the most durable dental camera on the market.

Camera features include :

14-megapixels of resolution for large prints
5X optical zoom (28-140mm equivalent)
2.7 inch LCD screen with 16:9 wide-screen aspect ratio and anti-reflective coating

Enhanced Digital Microscope mode
Detachable Macro stand

5 LED macro lights mounted around the lens bezel

Waterproof to depths of up to 33 feet
Shockproof from drops as high as 5 feet from the ground
Crushproof ti withstand up to 220 pounds of force

Coldproof/Freezeproof down to 14F/-10C
Dustproof

720p HD video at 30 frames per second

Pixel Track and Digital Shake Reduction
Face Detection, Smile Capture, Blink Detection
Autofocus assist lamp
Infrared remote control capabilities
Rechargeable Li-Ion battery
HDMI port for playing back HD videos and still images on you HDTV
SD/SDHC/SDXC card slot; Eye-fi compliant

TE FULL PACKAGE INCLUDDES

?Dine modified 14mp Camera
?Direct Connect downloading cord
?Hard Carrying Case
?Cheek Retractors
?Intra-oral Mirror
?Lithium Rechargeable Battery and charger
?2 gig Memory Card (SD)
?Memory Card Reader
?Liftetime Telephone Support and full written instructions

US$ 42.00

Fused silica crucible Used with chrome-cobalt alloys- high-fusing golds (2000 degrees F) (1093 degrees C) high-palladium and non-precious C&B alloys (Fits Mini-cast- Super-Cast & Modular 3-4-5). Package of 3.

Cements and Liners

GLASSBASE GLASS IONOMER CEMENT (Pulpdent)

HARD BASE CEMENT & DENTINE SUBSTITUTE FOR USE UNDER COMPOSITE AND AMALGAM
Self-Cure - Fluoride Releasing - Radiopaque

GlassBase is the ideal hard base cement and dentin substitute for use under all composite and amalgam restorations. It is dentin-shaded, radiopaque and acid-etchable.

-For a firm base under Class I & II compositeand amalgam restorations.
-For restoring missing tooth aspects.
-Bland to the pulp.
-Compressive strength: 28,000 psi.
-Radiopaque.

TEMPBOND (Kerr)

TempBond is a temporary cement for trial cementing restorations or cementing temporary crowns and bridges.

TempBond and TempBond NE are available in automix syringe, tube delivery and Unidose. TempBond with stands mastication, seals the restoration and prevents seepage, yet affords easy removal when desired.

TempBond NE is a non-eugenol temporary cement that will not inhibit the polymerization of permanent resin cements and acrylic temporaries. Resin-based **TempBond Clea** with Triclosan is the most translucent provisional cement in the market, ensuring superior esthetics.

Available in a convenient automix syringe, it offers a dual cure for added security and flexibility, ease of handling, excellent mechanical retention, and easy removal from preparations.

Desensitizer Cement

PULPDENT- 101505 Dentin Desensitizer 12ml bottl

US$ 49.49

Dentin Desensitizer - 12ml bottle - contains glutaraldehyde - fluoride - and water [P# DES]
- It can beapplied to all dentin surfaces - including cavity- crown - and inlay -preparations and cervical areas - as adesensitizing agent.
- It is not a dentin primer however it can be used in conjuction with adhesives andcomposites as well with provisional and permanent traditional dental cements.
- It does not interfere withbonding techniques and does not affect bond strengths of adhesives - composites - and resin cements -fluoride is added to enhance the stability of the solution.

Cements and Liners

Dual Luting Resin Cem.

ALPHA CEM DC

**ALPHA-CEM DCDUAL CURELUTING CEMENTAlpha-Cem DC is a radiopaque permanent resin cement.
It is available in one highly translucent shade that adapts well to the restoration of the tooth structure.
Recommended for cementation of implant prosthesis, crowns and bridges, inlays, Maryland bridges, veneers, posts, pins and periodontal splitting.**

KURARAY-100537 Panavia F 2.0 Intro Kit Light

US$ 174.00

Panavia F 2.0 Intro Kit Light Kurary America Inc (483KA)
Description:
PANAVIA F2.0Dual-Cure The new PANAVIA F2.0 is a self-etching, self-adhesive, dual-cure, fluoride releasing resin cement that can be cured with any Halogen, Plasma ARC or LED light. PANAVIA F 2.0 PASTE contains 2 photo initiators, providing a wider curing band with so you can use any of the currently available curing lights.PANAVIA F2.0, as with all Panavia resin cements, contains the same, proprietary MDP adhesive monomer that has been proven with over 20 years of clinical use. In addition to the legendary bond strength with metal restorative materials, this proprietary monomer also provides the strongest bond to any of the metallic-oxide ceramic restoration (Procera, In-Ceram, Cercon, Lava, Wolceram etc.)
[kurarai # 483KA] [P# M83-0416] [HS#7213775]

Features & Benefits:
Ideal for any procedure with any curing light
NEW self-etching primer
Legendary desensitizing
Strongest bond to metal-oxide ceramics
MDP self-adhesive monomer

Contains:
1 PANAVIA F2.0 A Paste 1ml
1 PANAVIA F2.0 B paste 1ml
1 ED Primer II Liquid A 1ml
1 ED Primer II Liquid B 1ml
1 Oxyguard II 1.5ml
1 Mixing pad
1 Mixing spatula
1 Brush holder
1 Disposable brush tips (50 pcs.)
1 Mixing dish
1 Light-blocking plate
1 Disposable nozzles (5 pcs.)

KURARAY-142-7214553 Panavia F 2.0 Standard Kit TC

US$ 220.00

Panavia F 2.0 Standard Kit TC - (Kurary America Inc #485KA) [[Cemento Kit Dual &&&]]**Panavia F 2.0 Standard Kit TC #485**
Description
PANAVIA F 2.0 is an universal resin cement which shows high bond strength to tooth structures, metals and ceramics. PANAVIA F 2.0 has been regarded as a guarantee for permanent adhesive technique in the areas of all-ceramics and metal restorations especially for high-quality and difficult restorations. It is recommended by leading universities as a premium product. The self-etching cement system prevents postoperative sensitivity and provides consistently good results. The anaerobic curing properties which do not begin until direct contact has been made with the restoration (no more contact with oxygen) and the flexible consistency make PANAVIA F 2.0 a popular aid in daily practice. Even after releasing fluoride, the cement maintains its high mechanical strength due to the special surface coating technology of sodium fluoride.

CONTENT:
1 PANAVIA F 2.0 A PASTE: 5.0 g (2.3 ml)
1 PANAVIA F 2.0 B PASTE: 4.6 g (2.3 ml)
1 ED PRIMER II Liquid A (4 ml)
1 ED PRIMER II Liquid B (4 ml)
1 ALLOY PRIMER (1 ml)
1 OXYGUARD II (6 ml)
Accessories: 1 mixing plad, 1 spatula, 1 mixing dish, 1 brush tip handle, 200 disposable brush tips, 20 disposable nozzles, 1 light blocking plate

KURARAY-151-panavia-ex Panavia-21 Ex Kit TC tooth col

US$ 250.00

Panavia-21 Ex Kit TC tooth color - (Dental Adhesive Kit Kurary # 460KA) [[Cemento Anaerobico Kit dual]]**PANAVIA 21 Ex Kit TC tooth color # 460KA**
Description
PANAVIA 21 is an anaerobic-curing adhesive resin cement which cures only when oxygen is excluded, i.e., when there is direct contact between two surfaces. This provides for optimal working time because the pastes cannot cure before the restoration has been inserted.

PANAVIA21 develops the greatest adhesive strength between tooth structure and restorations. Its use in combination with the self-etching ED PRIMER guarantees an effective and gentle preparation of enamel and dentin in one work step. Etching with acidic agents and the following rinsing become unnecessary which is why concerns about post-operative sensitivities are now a thing of the past. The enclosed etching gel is to be used to uncut enamel.

Because of the high bond strength paste-paste formula, PANAVIA21 offers a consistent mixture with practical processing and curing times. The practical dispenser simplifies mixing in the correct ratio. PANAVIA21 is suitable for a broad range of indications and is available in the three color shades EX (white), TC (tooth color) and OP (opaque).

Facts
Anaerobic-curing, i.e., in the absence of oxygen between contact surfaces
High bond strength to enamel, dentin, metal, metal alloys, ceramics and composite resin restorations
Reliable cement system with a self-etching ED PRIMER for tooth structure
With user-friendly dispenser

All equipments are also available in 220 volt. in our website...

IVOCLAR-076-558946 Variolink II System Kit Cement

US$ 475.00

IVOCLAR- Variolink II Esthetic Cementation System Kit Iv # 628319 - Dual cement with Excite DCS - **IVOCLAR- Variolink II Esthetic Cementation System Kit # 628319**

Variolink II is a resin composite luting cement for cementation of indirect all-ceramic, Ceromer, and resin composite restorations. It is especially recommended for the insertion of IPS Empress restorations. Variolink II is said to be dual cured.

Variolink II, the successor to Variolink, is purported to exhibit improved shade range, fluoride release, polishability, and decreased sensitivity to ambient light. Variolink II is available in six shades, three degrees of translucency, and three consistencies (low, high, and ultra-high viscosity).

The pastes are packaged in Luer-Lock Push Syringes, which gives users better control when dispensing the materials.

Includes :
6 - 2.5gram Base Syringes (Bleach XL, White, Transparent, Yellow, Brown, Opaque White)
4 - 2.5gram Catalyst Syringes (HV Transparent, HV Yellow, LV Transparent, LV Yellow)
12 - 0.1 gram unit dose ExciTE DSC
2gr syringe Total Etch
5gr Monobond Plue
2.5 gr Liquid Strip

Cements and Liners

Ionomer Base cements

GLASIONOMER BASE CEMENT (Shofu)

A high compressive strength base cement formulated for dentin replacement Recommended as a supportive, protective base under stress-bearing amalgam, composite and porcelain restorations. Compressive strength (147 MPa) High fluoride release reduces the occurrence of secondary caries Radiopaque Low solubility Easy mixing and handling Biocompatible and chemically bonds to dentin and enamel Pediatric temporary cusp replacement.

GC-Fuji-FujiCem Automix Pst Pk Refill 2/Pkg (Mfr#003208) Resin Modified Glass Ionomer Luting Cement **Resin Modified Glass Ionomer Luting Cement - Refill**
Pink - # Mfg Ref 003208

Now the choice is yours: automatic or by hand.
FujiCEM Automix: all the brilliant benefits of the exclusive FujiCEM Paste Pak dispensing system in a brand new, ultra-convenient automix delivery system.

Versatile new approach. No mixing. No mess. Easier results.
Developed by GC, a leading manufacturer of high quality, technically advanced luting cements, FujiCEM has built its reputation on successful clinical results during its seven years on the market.
The recipe for its success? With its own unique dispenser, FujiCEM creates a complete luting 'system' that not only simplifies the luting process, but also saves you time and helps ensure a perfect result.
Looking for added flexibility and ease of use? FujiCEM proudly presents the new Automix option. With FujiCEM Automix, you transfer an even mix directly into the restoration. It's faster and easier than mixing by hand - without voids or risk of post-op sensitivity.

Advantages

Extremely thin seating film
Adhesive and compressive strength guaranteed
Clinically insoluble ionic bonding
Sustained release of fluoride
Biocompatible
Radiopaque

Indications
Given its simplicity and timesaving benefits, GC FujiCEM is the ideal cement for your luting procedures with metal-based restorations and simple ceramic inlays.

CEMENTATION CROWN AND BRIDGE
Self-Cure - Fluoride Releasing

Glasslute is specifically formulated as the ideal ultra-thin glass ionomer crown and bridge luting cement. Its strong bond to dentin and fluoride ion release assure the long lasting bonding integrity required for luting cements.

-For cementing crowns, bridges & posts.
-High adhesion to tooth & restoration.
-High diametric tension to withstand masticatory forces.
-Universal tooth shade.
-Ultra-thin film thickness: 15 microns.
-Radiolucent.

Contain: 30g powder- 15ml liquid- scoop- mixing pad

GLASIONOMER CX (Shofu)

An enhanced Glass Ionomer luting cement with prolonged working time Indicated for cementing crowns, inlays, long span bridges and orthodontic appliances. Prolonged working time with no change in viscosity followed by a Snap-Set Low film thickness (20) with high compressive strength (177 MPa) Bonds to both dentin and enamel to provide an excellent marginal seal to overcome post-operative sensitivity High fluoride release Radiopaque Easy mixing, handling and resistant to water contamination at the initial stage.

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

CERVICAL RESTORATIONS - CLASS III AND V - & FISURE SEALING
Seld-Cure - Fluoride Releasing - Radiopaque

GlassFill is excellent for restoring cervical erosion areas, root caries and Class III & V cavities. It is also indicated for fissure filling and restoring deciduous teeth. Its index of refraction matches that of tooth structure, which prevents the shine-through or matte-white effect.

-For restoring cervical erosions, root caries and Class III and V cavities.
-For fissure sealing and restoring deciduous teeth.
-Use alone or with composite overlay and as a liner in the "sandwich" technique.
-Universal tooth shade. High compressive strength. Fast setting. Acid etchable.

Contains: 30 g powder, 15 mL liquid, scoop, mixing pad

PHOSPHATE CEMENT (Keystone)

Flecks Zinc Phosphate cement is and has been the leading choice of cements world wide for generations.This Zinc Phosphate cement has a wide range ofapplications from cementations to cavity liners. It iscompletely impervious to oral fluids, with stands the impact of mastication and occlusion, and retains full cementing strength in the thinnest films. Easy to use.Time tested for assured results.

Advantages:

- Impervious to oral fluids
- Available in a variety of cosmetically pleasing shades
- Retains cement strength even in the thinnest films
- Easily mixed
- Sets sharply to a relative strong mass from fluid consistency
- Adheres to crown and bridge materials
- Permanent cement with years of recognized excellence
- Outstanding retention and high strength

HY-BOND POLYCARBOXILATE (Luting) (Shofu)

Shofu Polycarboxilate Cements

Developed with Shofu's exclusive tannin fluoride additive
Cementation of cast restorations and orthodontic brackets.
Contains tannin fluoride, which helps seal dentinal tubules, reducing post-operative sensitivity
Chemically bonds to tooth structure and metal appliances

High adhesive strength (697 psi, 49kg cm2)
Extremely low film thickness (19 m)
Radiopaque

Easy handling with minimal solubility and disintegration.

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

RESICEM (Shofu)

ResiCem is an adhesive cementation system with outstanding physical propertiesfor all types of framework and restorative materials.
As the percentage of all-ceramic restorations continues to grow and the demand foraesthetic dentistry increases, Shofu introduces ResiCem.Modern framework materials, such as zirconia and alumina, require modifiedprocedures, as well as appropriate instruments and tools, to work on and integrateall-ceramic restorations.
Proper adhesive cementation is critical to the long-termclinical success of these highly aesthetic restorations.ResiCem is an adhesive cementation system with outstanding physical propertiesfor all types of framework and restorative materials.
-Excellent adhesion and aesthetics
-Customize to be universal for all materials
-Self-conditioning
-High fluoride release
-Very low film thickness (9m)

HY-BOND POLYCARBOXILATE (Temporary) (Shofu)

Shofu - HY-BOND POLYCARBOXYLATE TEMPORARY CEMENTS

A unique temporary polycarboxylate formula that 100% of independent evaluators rated Excellent or Good.*

SPECIAL FOR METACRYLATE PROVISIONALS,

-**79% of independent evaluators said they would switch**, " Its easier to clean-up and easier to remove"
-Excellent for temporary crowns, bridgework, implant prostheses, long-term provisional and temporary cementation of permanent restorations
-**Eugenol-free**
-Helps prevent microleakage and improves the marginal seal
-Excellent bonding strength for provisional restorations
-**Fluoride additive** for protection of tooth structure and reduction of post-operative sensitivity
-Economically priced compared to other leading brands
Results from a recent study by an internationally respected, independent research institute.

CALSET COMPULE HEATER

NEW and exciting technique for the treatment of light cured restorative materials. The CALSET Compule Heater provides an easy method for greatly enhancing the physical properties of any light cured restorative material. (110v)

BENEFITS

. 3 temperature Calset heats to : 98?F (37?C),130F (54F) and 155F (68C)
. Increases depth of cure, makes compositeeasier to extrude and better adapt to cavity walls
. Improves composite flow by 68%, and shortens curing time by over 50%
. Reduces Microleakage
. Improves physical properties
. Quickly loads compules with CoMax Gun
. Heats composite instruments for improved marginal adaptation

- Anesthetic injected at body temperature is more comfortable for the patient
-Veneer tray allows cementation using warm composite

Composite Sealers

ALPHA-SEAL LIGHT CURE

ALPHA-SEALLIGHT CURE RESIN-BASED PIT & FISSURE SEALANTAlpha-Seal is a fluoride releasing, light cure, resin-based Pit & Fissure Sealant. This sealant contains 50% radiopaque nano-sized fillers.
The hard setting, wear resistant material has an ideal flowable viscosity for maximum coverage and protection to seal the pits and fissures of teeth susceptible to caries.
The fluoride assists in caries prevention and the inhibition of enamel demineralization.
The syringe needle tips allow for quick and accurate placement of the material. Alpha-Seal is available in an Opaque shade to allow for easy identification during patient examinations and in a Clear shade for patients who wish to have an "invisible" sealant

SEAL KIT

Kit contains:
- 3 x 1.5gr syringes
- Dispensing tips 10
- 1 x 4gr etch syringe
- Dispensing tips 10
- Disposible brushes 20

SHOFU- 111964 Clearcheck 1.2 ml Sy 20 tips — US$ 81.12

Shofu - Clearcheck SLP # 1255

Clear Check SLP instantly provides exceptional shine for composites and restoratives without time consuming polishing. Clearly lasting protection for new and old restorations.

Contains: 4 1.2ml syringes 20 tips and instructions

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

ECCO-567260 LC. Comp.Sealer 4x1.2cc — US$ 33.81

Light Cure Composite Sealer 4x1.2cc + 20 tips - [J# - 567260]
- LC composite sealer is placedand light cured to reseal polished composite margins- to annualy reseal composits to preventmicroleakage- to seal etched enamel margins before palcement of composite restorations and toglaze resin temporaries.

ECCO-557705 LC. Sealant 2 x 6cc bottles — US$ 35.02

Light Cure Composite Sealer 4x1.2cc + 20 tips - [J# - 567260]
- LC composite sealer is placedand light cured to reseal polished composite margins to annualy reseal composits to preventmicroleakage to seal etched enamel margins before palcement of composite restorations and toglaze resin temporaries.

ECCO-567120 LC. Sealant 4x1.2cc — US$ 20.53

Light Cure Pit & Fissure Sealant Mini Dental Kit #567120

-Llight cure pit and fissure sealant occulates potential carious lesions.
- Particularly in the erupting dentition phase. After etching and drying occlusal and buccal surfaces- apply pit and fisure sealant and light cure for 20 sec.

Contains: 4x1.2cc syringes + 20 tips

ECCO-55712150 LC. Sealant 50x1.2cc sy — US$ 181.13

Light Cure Pit & Fissure Sealant 50x1.2cc syringes + 50 tips - [J# - 55712150]
- Light cure pit andfissure sealant occulates potential carious lesions-particularly in the erupting dentition phase
- Afteretching and drying occlusal and buccal surfaces
- Apply pit & fisure sealant and light cure for 20sec.

Flowable Composite

ALPHA-FLOW

ALPHA-FLOWLIGHT CURE RESIN-BASED MICRO-HYBRID FLOWABLE COMPOSITE

Alpha-Flow is a radiopaque fluoride containing light cure resin-based micro-hybrid flowable composite. The specially formulated material incorporates both a nano-sized filler for increased flexibility and superior polishability and a 0.7 micron filler for excellent strength and wear resistance.

This special combination provides a material with extreme versatility for use in a wide range of procedures, **including Class III and V cavity configurations and small Class I and II restorations.**

Alpha-Flow contains fluorescence to provide a duplication of the natural tooth surface.

FLOWABLE COMPOSITE KIT

Kits are available in :

-Standard: A2, A3, B2, Universal opaquer

-Custom: You choose the shades (see refills for all shade options)

Kits Contain:

- 4 x 1.5g Alpha Flow Composite Syringe and 20 Syringe Applicator Tips

BEAUTIFIL FLOW (Shofu)

- A fluoride releasing dental flowable restorative material designed to provide optimal flow and handling Benefits: Compliments Beautifil to further enhance its applications
- Two distinct viscosities Beautifil Flow F02 (Low Flow) and Beautifil Flow F10 (High Flow) and maintains the same aesthetics, physical properties,particle size and filler load
- Ideal as a base or liner to help prevent caries recurrence
- It makes extremely easy to fill cavities and the operator can select each type depending on the clinical case
- Low Flow Type is effective to use where paste flows moderately and shape should be retained, such as cervical area
- High Flow Type is effective to use where smooth flow is necessary such as uneven place, narrow and complex part and usage for liner

US DENTAL DEPOT Inc is an Authorized SHOFU Dealer in the US.

HIGH FLOW

F10 : Falls 10mm in one minute

For Sealing class V -

Shofu's Beautifil Flow Plus combines the strength of a traditional composite with the fluoride-release capabilities of glass ionomers and the convenient delivery of a flowable

Glaze for composites

ALPHA- 106641 Alpha-Glaze LC Comp Sealant 7m

US$ 23.00

Alpha-Glaze LC Composite Glaze & Sealant 7ml - bottle **Alpha-Glaze LC Composite Sealant**

Alpha-Glaze is a Light Cure unfilled resin with low viscosity to be used as a finishing sealant for composites and resin cements. It is formulated to penetrate and seal the micro-cracks and surface imperfections that are created by the finishing procedures.
Contains: 7ml - bottle

KULZER - 015-722711 Palaseal Sealant 2 x 15ml LC

US$ 79.00

Kulzer- Palaseal Light Cure Sealant 2 x 15ml Light Curing Sealant adheres to temporary C&B and denture base. Prevents plaques on surface of acrylics. **Kulzer- Palaseal Light Cure Sealant 2 x 15ml**

Light Curing Sealant adheres to temporary C&B and denture base.
Prevents plaques on surface of acrylics.

PULPDENT- 101495 LC Seal-n-Shine 2x1.2ml syr

US$ 65.20

Seal-n-Shine - 2 x 1.2ml syringes + 40 flocked tips - [P# EMSNY]
- Seals compositesand margins finishes and polishes restorations saves time
- Margin-free toothintegrating -eliminates microleakage - bonds in a slightly moist field
- Compatible withall curing lights - eliminates final finishing and polishing steps - heals white lines -prevents marginal staining - provides smooth- durable - protective finish - tough andresilient - cures clear - no yellow tint - no solvents - no modifiers - no mixing - no mess

PULPDENT- 101494 LC Seal-n-Shine 6ml bt 100tips

US$ 76.08

Seal-n-Shine - 6ml bottle - clear shade - brush handle - 100 brush tips - [P# EMSNS] - Seals composites and margins finishes and polishes restorations saves time - margin-free tooth integrating-eliminates micro leakage - bonds in a slightly moist field
- Compatible with all curing lights - eliminates final finishing and polishing steps - heals white lines - prevents marginal staining
- Provides smooth durable- protective finish - tough and resilient - cures clear - no yellow tint - no solvents - no modifiers- no mixing - no mess -

ALPHA II AP

ALPHA II APLIGHT CURE MICRO-HYBRID COMPOSITEAlpha II AP is a radiopaque fluoride containing light-cure restorative composite.
The special combination of fillers form a material that is extremely durable and wear resistant; making it ideal for Class I and Class II restorations, yet highly polishable for use in all Class II, IV, and V restorations.
Alpha II AP has optimal handling characteristics. The material can be easily manipulated without sticking to your instruments. Alpha II AP contains fluorescence to provide a duplication of the natural tooth surface.

ALPHA-DENT LIGHT CURE

ALPHA-DENT LIGHT CURE COMPOSITELIGHT CURE HYBRID COMPOSITEAlpha-Dent Light Cure Composite restorative is radiopaque.
It has the versatility of the hybrid composite while measuring high compressive strength with excellent polishability.
This composite is appropriate for almost every type of restoration.
The material is avaliable with the Exact Match System, which uses a specially designed computer program to match

the composite color and translucency to the VITA shade guide

FILTEK Z250 RESTORATIVES SYRINGES (3M)

Speed and convenience in a universal dental composite resin that provides exceptional handling, long-lasting esthetic results, and is available in 12 shades. Refill includes 1 - 4g syringe in shade A3.

Benefits:
Low polymerization shrinkage for less stress on the tooth and less potential for patient sensitivity.
Speed and convenience: easy to use, fast placement technique, and easy to finish to a smooth surface.
Excellent handling with exceptional resistance to slumping.
Strong, long-lasting and natural-looking results.
Outstanding versatility for any area of the mouth.

Z100 RESTORATIVE SYRINGE (3M)

Z100 Restorative material is a visible light-activated, radiopaque dental composite. It is designed for use in both posterior and anterior restorations.

The filler in Z100 restorative is zirconia/silica. The inorganic filler loading is 66% by volume with a particle size range of 3.5 to 0.01 micron.

The restorative is available in a variety of composite shades (A1, A2, B1, B2, etc). It is packaged in traditional syringes and single-dose capsules.

TECH WEST ULTRA CLEAN COMPRESSORS

TECH WEST ULTRA CLEAN COMPRESSORS
Lubricated Air Compressors

Tech West Ultra Clean Lubricated Air Compressors are designed to meet your needs with our high performance drying system. We guarantee the clean, dry, oil free air you expect.

Compressor design offers the quietest compressors in the industry
The air is dried before the tank to prevent bacteria build up in the tank
All models have desiccant air drying systems
Energy efficient motor reduces the need for costly boost transformers
Available in single, dual or tripple head configurations
Vibration free copeland heads provide smooth running compressors
Air intake filters trap dirt, dust and air born pollutants
Energy efficient thermally protected motors
Moisture indicators standard on all models

The Ultra Clean Lubricated Air compressor comes complete with moisture indicators, epoxy-coated tanks, rubber-leveling feet and handles for easy lifting and installation. Available in single, dual or triple configurations.

TECH WEST ULTRA CLEAN LARGE FACILITY AI R COMPRESSOR

Tech West Large Facility Ultra Clean Air Compressors lead the industry in design and quality providing ultra clean, dry air to the dental office. They are built to meet the needs of the most demanding
dental practices.

They range from 10 to 60 users in a single or dual configuration. They feature our high performance refrigerent dryers. They have air cooled after coolers with heavy cast iron heads for
long lasting performance.
All compressors are wired for 24V remote switching and are ready for installation.

Compressors have energy efficient motors, totally enclosed OSHA approved fan guard, magnetic motor starters with overload protection, discharge air coalescing filters and regulator. The large facility compressors come with refrigerant air dryers.

OILESS

TECH WEST OIL LESS (THE ROCKY SERIES)

THE ROCKY SERIES AIR COMPRESSORS

Oiless air compressors provide 100% oil free to the dental office. With a high performance air drying system, we guarantee the clean dry air you expect. The design of our compressors provide smooth, quiet, vibration free operation at only 66 dB-A noise level.

-Moisture indicators standard on all models
-All air receiver tanks have internal epoxy coating applied
-Teflon coated pistons and sleeves insure long life of the compressor heads
-The air is dried before the tank to prevent bacteria build-up
-Compressors are available in dual, triple or quad head configurations
-All models have desiccant air drying systems
-Energy efficient thermally protected split phase motors
-Remote air intake filters trap dirt, dust and air born pollutants
-Rocking piston technology decreases noise and increases motor life

Core Build-Up Material

US DENTAL DEPOT

ALPHA CORE BUILD UPS

The materials exhibits ideal mechanical properties with high compressive and tensile strength yet maintaining a dentin like feel when cutting.

ALPHA CORE DC DUAL CURE

- This highly filled radiopaque, dual cure composite is designed specifically for core build-ups and cementations of posts and pins.
- The material exhibits ideal mechanical properties with high compressive and tensile strength yet maintaining a dentin like feel when cutting.
- Its ideal handling characteristics allow the materials to be placed with a syringe and depending on the shade of the base paste it can be used to match or contrast the tooth color.
- Available in Natural or Contrast Blue.

Power voltage AC100-240V 50-60Hz
Input power 5W
Light intensity 600mw/cm2 and 1200mw/cm2
Wavelength 400-500nm
1 Year warranty

ECCO-101921 LIGHT-S-II Led 1400nw -Display

US$ 165.00

ECCO LIGHT-S-II 1400 mW Item # 101921

NOW IN SPECIAL OFFER !!!

Carton LED curing light S-II is a perfect combination of the highly efficient LED tube, the micro-control electric circuit and the rechargeable lithium battery. So it is featured with highefficiency, outstanding function, convenient operation, and longevity, making it become the latest top product in the global dentistry market. 1.
It can produce a strong blue light directly.
The depth of the polymerization of resin material can reach 2mm.
2. It is a kind of cableless machine, equipped with rechargeable battery. When charged once, the machine can be used for 40 minutes continuously.
3. The machine can hang directly on the toothchair or the rack for special use for safety and convenience.
4. Convenient to operate:
5. 3 preset curing light time from 10- 20- 30 seconds.
6. The light intensity can reach 500mW/cm2 - 900 mW and 1400 mW

SPECIFICATIONS AND EQUIPMENT CLASS
Power supply: Input voltage: 110 & 220VAC automatic Adaptor
Output voltage: 4.2VDC+/-0.1 Output current: 600+/-50 mA
Internal power supply lithium battery: 3.7 v saturated electricity measures 700mAh charging time: about 2.5 hours
Equipment class: Class A (Medical Appliance Classification Catalog)
Protection from ingress of liquids: None
Lamp: 3.6V AC, 3W
Output wavelength range: 420-480nm (nanometers)
Feature size: 20*198mm
Net weight: about 105g
Warranty: one year Standard accessory include: adapter 1 pc , (European or American type) , sterilize sheet 1pack (50pcs) user's manual

EMBRACE™ WetBond™
Class V
Cervical Restorative Resin

Light Cure
Wet-Bondig
Radiopaque

ASEPTICO - 111218 Amplitude Piezoelectric Scaler

US$ 749.00

ASEPTICO - Amplitude Piezoelectric Scaler (No Tips For Export)- Wide variety of uses- including: Hygiene- Periodontal #ASC-12
AMPLITUDE PEIZOELECTRIC SCALER #ASC-12

-Wide assortment of use, including: Hygiene, Periodontal & Endodontic scaling applications
-16 Power levels (5 power boost settings)

-Programmable preset buttons
-Compatible with a wide assortment of scaler tips (M3 x 0.6 thread pattern)
-Auto-sensing global voltage compatibility
A-E-7PM 360 touch, weighted footswitch
-Auto-detects frequency range: 27-34 kHz

Manufactured in the USA

ASEPTICO - 111201 Aseptimini Prt Dental Unit

US$ 2,904.72

ASEPTICO - Aseptimini Portable Dental Unit #ADU-10 #ADU-10**ASEPTICO - Aseptimini Portable Dental Unit #ADU-10**

Aseptico portable unit continues to be the doctors choice. Preferred above all similar mobile systems (Adec, Mdec, DNTL, etc.) because of size, weight, convenience and durability.

Features Include:
Aseptic control box, tubing and holders.

Autoclavable water container, syringe tips and vacuum container.

Wet/dry foot control.

Automatic high and low speed handpiece controls.

Easily quick couples to air compressor.

Size: 11-3/4" x 14-3/4 x 13-3/4 ", weighs just 24 lbs.

Optional: Either or both high and low volume vacuums (pictured).

Operates off of air - no vacuum pump needed.

ASEPTICO-013-ADU-08SX Express II Portable Unit

US$ 3,295.00

Express II Portable Unit - Portable dental equipment perfect for portable dentistry - Pneumatic Handpiece control - Convenient instrument holder - attaches to case pull-up handle - 3-way air/water syringe - HVE and saliva ejector with vacuum hoses valves- and tips - 1-liter water supply reservoir - 1 gallon (4.1 liter) waste container with automatic overflow shutoff - Built-in compressor Suction may be activated via the included AE-7P footswitch or manually switched to run continuously Impact resistant case - includes pull-up handle and wheels for easy transport - Dual voltage - Specify when ordering. Fuses for both voltages included**EXPRESS II PORTABLE UNIT**

Portable dental equipment perfect for portable dentistry - Pneumatic Handpiece control - Convenient instrument holder - attaches to case pull-up handle .

3-way air/water syringe
HVE and saliva ejector suction
1 Liter water reservoir
Extra-large 1 gallon (3.79 liter) waste container with automatic overflow shut-off
Built-in compressor
Handpieces and suction may be activated via the attached footswitch or manually switched on to run continuously
AWS-1C water connection for ASC-12 or other external scalers
All components pack into impact-resistant carrying case with wheels for easy transportation
Convenient instrument holder attaches to the retractable handle on the case
Dual voltage switchable - Specify 110 or 220 V when ordering - fuses for both voltages included
Weight: 43.5 lbs (19.7 kg)
Dimensions: 10.5 x 14.5 x 24 (27 x 36 x 61 cm)

Manufactured in the USA

US$ 407.68

ASEPTICO - Vacuum Saliva Ejector for portable units #AA-25**ASEPTICO - Vacuum Saliva Ejector for portable units #AA-25**

The AA-25 Saliva Ejector is an air powered, self contained oral evacuation system. It is supplied with a plastic waste container and a single low velocity hose. To operate, remove the saliva ejector valve from holder and insert a standard saliva ejector tip. Turn the vacuum toggle switch, located on the front of the cart, to the ON position. The vacuum may be adjusted by moving lever valve on the saliva ejector tip. The lever valve assembly snaps apart at the swivel and may be autoclaved.

Waste from the vacuum system will collect in the attached plastic bottle. When the waste container is 3/4 full it must be emptied to prevent a back-up in the system. After each use the vacuum system should be cleaned by running clean water or vacuum system cleanser through the evacuator hose and thoroughly cleaning the waste bottle. Also, remove rubber tip and clean or replace the plastic screen.

Sterization PLUS Pouches

With all the superior design characteristics of our standard DEFEND pouches, DEFEND+PLUS pouches are **constructed with a built-in, lead-free Internal Indicator**, giving you peace of mind when it comes to the sterilization of your instruments. **The Internal Indicator ensures the correct sterilization temperature is reached where you really need it.**

This eliminates the need for an internal indicator strip inside the pouch with your instruments. In addition, the external indicator will still change color when the optimal temperature is reached.

ECCO-101954 ECCO- Apex Locator #5

US$ 236.22

Apex Loccator Joypex 5 Item # 101954

Apex Locator Joypex 5 adopts the fifth generation circuit-
High Surge Frequency & Low Frequency in the Apex area

DISTINCTIVE FUNCTIONS :
***Frequency operating system-0.1mm length determination**
***Works in dry or wet canals or filled with electrolyte, blood or physiological brine will not affect the measuring result**
***Adjustable LCD angle for customized view angle**
***Self calibrating**
***LCD panel Traces and Shows the file moving in the canal**
***Autoclavable file holder and Hooks**
***Audible warning system when file is closer than 2mm**
***Adjustable volume of sound indicator**
***Excellence in working length determination comes with 5 different setting of apical adjustment around the minor diameter (Apex area)**
*** Power supply 5 AAA batteries**
***CE 0197 STANDARD ACCESORIES**
***main unit 1 pc, testing cord 1 pc**
***file holder(autoclaveable) 2 pcs *contrary electrode 4 pcs, user's manual 1pc**
***root canal ruler (optional)**

ECCO-102431 ECCO-Pex-II Apex Locator #6

US$ 257.22

ECCO-Pex-II Apex Locator

-Latest Model of Apex Locator (DenApex)
Apex Locater DenApex adopts multi-frequency operation system in global dental field!

Features:

Battery-operated by 3 pieces of AA battery to save the power!
Large colored LCD screen showing the distance 34mm away from the apex.
Sound operated switching device can can produce differnent kinds of sound to indicate the differnet position of file in the root canal!
Dry and Wet condition are also available for accurate reading!
Adjustable apical constriction (range 0--5mm)
Autoclavable accessories to avoid cross infection.
Self-check circuit to guarantee the accuracy before operating!
Compact, stable, ergonomic design for easy handling
Auto power shut-off
Safety test report, EMC test report and CE 0197 can be provided!

Standard accessory include:
Main unit 1 PC
Testing cord 1 PC
File holder(autoclaveable) 2 PCS
Stainless hook 4 PCS
User's manual 1 PC
DENAPEX

NSK- 101376 I-PEX Digital Apex Locator

US$ 989.75

NSK IPEX - iPEX Apex locator NSK original
Features :
The NSK Advanced Digital Apex Locator has been developed to accurately measure the length of canals in all conditions, including dry, wet and where blood is present.
iPex guarantees security for canal interventions, and improves patient comfort, without exposure to radiation. The large high contrast LCD display provides instant measurements.

-Instant accurate measurement of canal length
-User friendly interface
-Large Hi-contrast LCD screen for easy monitoring
-Compact and smart design
-Audible warning system
-Auto power shut-off
-AAA battery operation

-Push-button type file clip for one-touch operation

iPex Complete Set
MODEL: iPex
Contents:
-Control unit
-Probe
-File clip (3 pcs.)
-Lip hook (3 pcs.)
-Extension cord
-AAA manganese dry batteries (4 pcs.)
-Power Supply : 1.5 V AAA (LR03 or R03) batteries
-Continuous use : Approx. 50 hours
-Dimensions : W80 x D 80 x H95 (mm)
-Weight : 185 g

Manufactured by: NSK

JMORITA-113594 Root ZXII HP/No Led Modul Ea

US$ 1,549.00

JMORITA-Root ZXII HP/No Led Modul - Apex Locator with Low Speed Handpiece As the world-s best selling apex locator- Root ZX II has set the industry standard for accuracy and patient safety. **JMORITA-Root ZXII HP Apex Locator with Low Speed Handpiece #24-5344271**

As the world's best selling apex locator, Root ZX II has set the industry standard for accuracy and patient safety.

Invented in 1992, it was the first unit with the ability to work in wet canals - measurement is not affected by the presence or absence of blood, other discharges, or electrolytes. Root ZX II features patented technology which offers an accuracy rate of 97.5%*. User friendly, its display screen is large and easy to read. The action of the meter in the display corresponds exactly to the tactile sensation of using the file. Other features include: slim, lightweight file holder, no zero-adjustment, automatic calibration, battery power indication, and automatic power off function.

The module snaps easily onto the back of the unit and offers numerous safety features including Auto Apical Reverse and Auto Apical Slow Down.

APEX LOCATOR FEATURES:

-97.5% accuracy rate*
-Automatic calibration
-Ability to work in wet canals
-Easy to read display screen
-Upgrade option to Low Speed Handpiece
-*Independent study, data on J Morita file.

Long File Holder

A long touch file holder is available to be used with the probe cord. It features a fork-like tip that allows the clinician to get an apex reading by simply touching the file. The file holder is 5 inches long, autoclave safe and ideal for hard-to-reach molar procedures, thus increasing access to the work area.

Indications
Apex location/measurement of root canal length

Unit Includes:

Micromotor (TR800), Contra Angle, Handpiece Cord, Handpiece Rest, AR Oil, AC Adapter, Battery (pre-installed), Foot Switch, Handpiece Plastic Sleeves (20)

Endodontics

Chelating Agents

ECCO-585893 EDTA Root Canal Prep 60cc bott

US$ 19.00

Ecco-EDTA Root Canal Prep 60cc bottle - etch - [J# - 585893] - edta i used as an irrigant to clean endodontic canals - also used to prepare post preparations before cementation - **EDTA SOLUTION 17% x 60ml liquid**
17% EDTA Solution, been buffered to a natural PH is a very effective calcium binding.
Superficially disolves root canal walls without harming vital tissue self-limiting & Sterilizing.
Active at neutral pH; Inactivated by oxygen or chlorine

Endo Motor Is The Supplementary Root Canal Treatment Device
Which Can Assit The Dentists To Shape More Standard Root Canal
In The Process Of Root Canal Treatment Based on The Dentists Work Intensity.

NSK- Y141-120 Endo-Mate DT Std Set 110v

US$ 1,337.50

NSK- ENDO-MATE DT 110v - NSK# Y141-120 Complete - Endo Micromotor With Torque Control. (complete set) - NSK Control Unit + Motor + Cord + Mp-F20R Head (20.1) (Reduction Handpiece)-+ Ac Endo-Mate Micro- Uses Standard files - (works with Apex locator Ipex)- Made in Japan (NSK# Y141-120) Endomate [this is an Original NSK handpiece - Factory sealed box - Made in Japan - Brand new - Never opened - with Factory Warranty]**NSK ENDO-MATE ENDODONTIC MICROMOTOR**

ENDO-MATE DT is specifically designed for use with Ni-Ti files from all major suppliers. User-programmable preset memory can store up to 9 speed and torque settings exactly to the suppliers spec. A compact and lightweight control unit offers convenience of full portability between offices. ENDO-MATE DT can be hooked up directly to wall outlet or used with rechargeable battery. A large LCD display offers higher visibility for instantaneous recognition of micromotor status.

-Speed range : 100 - 13,000min-1
(with 20 : 1, 4 : 1, and 1 : 1 geared heads)
-Fits all popular brand of Ni-Ti files
-Auto-reverse function
-Compact desktop unit
-Large LCD screen provides clear visibility
-Simple-to-operate Flat Control Panel
-Dual Power Source:
AC or Battery Operation
-Slim and light handpiece
-2-Way ON/OFF switch
-Number of Programs : 9
-Torque control from 0.1 to 6.5 Ncm
(Depending on the heads gear ratio)

-Power Supply : AC 120V/230V, 50/60V & Battery pack
-Dimentions : W92 x D148 x H124 (mm)
-Weight : Unit 456 g / Micromotor & cord 92 g
-Charge / Continuous use : 5h - 2h
(depending on workingload)

ORIGINAL NSK - MADE IN JAPAN - SEALED BOX - (FACTORY WARRANTY)

NSK- 113541 Endo-Mate TC Std Set 110v

US$ 1,195.00

NSK- ENDO-MATE TC Endo Micromotor 110V - Cordless Micromotor with Torque Control & Auto Reverse Includes: Endo-Mate TC Motor- NE140 Charger- NML-F16R Head - Endomate (NSK# Y141-161) (NSK# Y140-978)**NSK- ENDO-MATE TC Endo Micromotor # Y141- 161**

Compact and lightweight cordless handpiece with fine torque control. ENDO-MATE TC offers high performance, is lightweight, slim and well balanced.

Via the application of Microchip technology, NSK introduces a single cordless micromotor with the capability of delivering 5 torque settings from delicate torque for fine endodontic applications through powerful torque for general procedures

including prophylaxis.

9 pre-programmed speed ranges allow the operator to easily select the required speed setting for any application.

When the 16:1 reduction head is attached the speed ranges from 125 min-1 to 625 min-1. For endodontic procedures, the "TC" button automatically activates the very fine torque control and auto reverse functions.

ORIGINAL NSK - MADE IN JAPAN - SEALED BOX (FACTORY WARRANTY)

ASEPTICO - 111146 Endodontic Motor AEU-25

US$ 1,331.20

ASEPTICO - Endo Unit **Incl Ae-4B-30 AEU-25 **ASEPTICO - Endodontic Motor AEU-25**

--Handpieces sold separately--

The Endo DTC Electronic Endodontic System is a highly advanced unit that is fully programmable with five memory locations to help automate your operating procedure. Saving your customized settings is achieved using the simple front panel controls.

Our Auto Stop Reverse feature automatically reverses the direction of rotation of the file when a defined torque level is reached - reducing the occurrence of file breakage while lessening procedure time. The Endo DTC also features an integrated calibration system to give the highest measure of accuracy and consistent operation.

Endo DTC Advantages:
Console is simpler to use than other high end system - Note that the DTC expresses torque in actual Gram Centimeter units - not arbitrary percentages.
Aseptico's autoclavable brushless motor is superior to other motors on the market today; more reliable than brush motors, greater range of torque and better control of speed and torque than stepper motors. Greater range of use with a speed range of 300 to 30,000 RPM - much more versatile!
Full range of handpiece ratios supported - 1:1, 4:1, 8:1, 16:1, 64:1
Fully autoclavable motor/cable assembly, easily detached from console.
System features automatic callibration to test both the motor and handpiece for accurate performance in all of your procedures.
Outstanding torque.
Brushless motor, micro processor controlled.
Backlit LCD RPM, handpiece ratio and torque setting readout.
1/8 reduction mini-head handpiece is recommended.

ASEPTICO - 111147 Endodontic Motor AEU-26

US$ 1,866.80

ASEPTICO - Endodontic System #AEU-26 **Endodontic Motor System #AEU-26**

--Handpieces sold separately--

The new Endo DTC2 Electronic Endodontic System is a highly advanced unit that is fully programmable with five memory locations to help automate your operating procedure. Saving your customized settings is achieved using the simple front panel controls.

Our Auto Stop Reverse feature automatically reverses the direction of rotation of the file when a defined torque level is reached - reducing the occurrence of file breakage while lessening procedure time. The Endo DTC2 also features an integrated calibration system to give the highest measure of accuracy and consistent operation.

Endo DTC2 Advantages:

Console is simpler to use than other high end systems - Note that the DTC2 expresses torque in actual GramCentimeter units - not arbitrary percentages.

Aseptico's autoclavable brushless motor is superior to other motors on the market today; more reliable than brush motors, greater range of torque and better control of speed and torque than stepper motors. Greater range of use with a speed range of 300 to 30,000 RPM - much more versatile!

Integrated file library
Preset options allow single file, file series, or custom file series
Full range of handpiece ratios supported - 1:1, 1:5, 8:1, 16:1
Fully autoclavable motor/cable assembly, easily detached from console.
System features automatic callibration to test both the motor and handpiece for accurate performance in all of your procedures.
Outstanding torque.
Upgradeable Software
Brushless motor, micro processor controlled.
Bright, easy-to-read display for RPM, handpiece ratio and torque setting readout.
1/8 reduction mini-head handpiece is recommended.

JMORITA-113593 TRI Auto-ZX Cordless HdPc Ea

US$ 2,189.99

JMORITA-TRI Auto-ZX CCordless Endodontic Treatment Handpiece.The cordless Tri Auto ZX is the only endodontic handpiece with a built-in apex locator- providing the capability and convenience to electronically monitor the root canal before- during and after instrumentation. With the combined technology and accuracy of the Root ZX apex locator- the Tri Auto ZX can significantly increase accuracy and safety. FEATURES:Handpiece will automatically shut off after three minutes of non-use**JMORITA-TRI Auto-ZX Cordless Endodontic Treatment Handpiece # 24-5316227**

The cordless Tri Auto ZX is the only endodontic handpiece with a built-in apex locator, providing the capability and convenience to electronically monitor the root canal before, during and after instrumentation. With the combined technology and accuracy of the Root ZX apex locator, the Tri Auto ZX can significantly increase accuracy and safety.

The Tri Auto ZX also offers greater control and flexibility with the adjustable torque settings. The choice of automatic or manual mode operations provide versatility. The three automatic functions include: Auto Start/Stop, Auto Apical Reverse and Auto Torque Reverse.

FEATURES:

- Handpiece will automatically shut off after three minutes of non-use
-Monitor position of file while cleaning and shaping

-LED control panel on handpiece for easy viewing
-Cordless for maximum flexibility
-(3) automatic functions
-Extremely safe

INDICATIONS:

-Operates as a low speed handpiece to make flares and prepare the upper portion of the canal
-Shapes and cleans root canals while monitoring the files position inside the canal
-Measures the length of the root canal using the apex locator

PACKAGING:

Unit includes a handpiece, contra head, charger, battery, probe cord, (3) file holders, (5) contrary electrodes, function tester, AR oil, and an instructional video.

SPECIFICATIONS:

Handpiece Weight: 160 g
Handpiece Outer Dimensions (WXDXL): 30 X 37 X 212 mm
Charger Outer Dimensions (WXDXH): 80 X 123 X 55 mm

Non Standardized(Accessory sizes)

- Accurate insertion of the working length
- No need to mark working length on the points
(A-ssurance of the accurate insertion after filling)
- Time saving with safe, easy and fast filling
- Variety in the selection of sizes and packaging available

Special Taper Points

Time saving with easy filling
For faster and easier root canal obturation
Variable tapers & sizes
Length marking available
- Excellent radiopacity
- Long shelf life and freshness assured
- Suitable for vertical and lateral condensation

Sizes

.04 Taper : 15 to 90
.06 Taper : 15 to 40
.08 Taper : 15 to 40
.10 Taper : 15 to 40

Hedstroen Files SS & NITI

ECCO HEDSTROEN FILES 28mm

- Highly efficient enlargement of root Canals in filing motion
- Exelent cutting ability, precision cutting edges and unique griding technique
- Flat cutting angles towards the tip ensure high resistance to fracture
- Special steel alloy with uniform structure
- The inactive tip conducts the instrument safely along the canal
- Instrument type and ISO size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Used in probing motion towards apex,then pulling back motion
- Box of 6 pieces

ECCO NiTi K FILES 21mm

- For preparation of severely curved and narrow root canals
- NiTi, improved handle
- Triangular cross-section for highest cutting efficiency.
- More cutting edges than flexicut reamers
- Cutting angle effective with filing motion
- NiTi allow with uniform structure for maximum
- Resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safely along the canal
- Radiopaque deph marks
- Box of 6 pieces

ECCO NiTi K FILES 28mm

- For preparation of severely curved and narrow root canals
- Stainless steel, improved handle
- Triangular cross-section for highest cutting efficiency.
- More cutting edges than flexicut reamers
- Cutting angle effective with filing motion
- NiTi allow with uniform structure for maximum
- Resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safely along the canal
- Radiopaque deph marks
- Box of 6 pieces

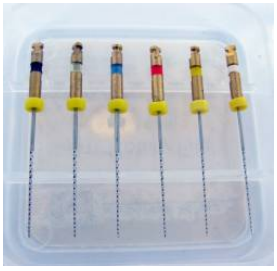
NiTi Engine K Files

ECCO NiTi ENGINE K FILES



- For preparation of severely curved and narrow root Canals with a filing motion
- NiTi, improved handle
- Triangular cross-section for highest cutting efficiency.
- More cutting edges than flexicut reamers.
- Cutting angle effective with fi ling motion
- Taper /02 provide high stability and flexibility in severely curved and narrow root canals
- Special steel allow with uniform structure for maximum resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safety along the canal
- Recommended speed 280-300rpm
- Box of 6 pieces

Endodontics

NiTi Tapered - Engi & Manu

EMBRACE™ WetBond™ Class V
Cervical Restorative Resin

Light Cure
Wet-Bondig
Radiopaque

- Bonds to the slightly moist tooth.
- Self-etching to dentin.
- Cures with all lights.
- 4 shades: A2, A3.5, B2, D2

ECCO NiTi PRO-TAPER ENGINE FILES

- Revolution design with progressive taper
- For preparation of severely curved and narrow root Canals with a filing motion- NiTi, improved Handle- Taper 0.2-08 progressively
- Triangular cross-section for highest cutting efficiency. More cutting edges than flexicut reamers.
- Cutting angle effective with fi ling motion
- Specials steel alloy with uniform structure for maximum resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safely along the canal
- Recommended speed 280-300 rpm
- Box of 6 pieces

Oburation System

ECCO- 113497 Gutta Percha Obt System Gun

US$ 475.00

DENJOY-ECCO Cordless Gutta Percha Obturation System Gun

Includes:
-Oburation Gun
- Charging Base
- Adapter
- Heat insulator [1pcs]
-Stand for Gun
- Gun tips [3pcs]
- Battery [2 pcs]
Accessory tool - Brush [2pcs]
- English Manual -

Obturation Gun
1.Heater DC3.6 V 8W
2.Temperature sensor Thermocouple
3.Heating time 2 Minutes
4.Temperature range 50-200 C

ECCO-111915 Guttapercha for Obtura 50pk

US$ 27.00

OBTURA Guttapercha Bars for thermal Systems 50pk - 100% compatble with Obtura system and Sybron endo - [[Guttapercha points for gutta percha system]] **Properties of an Ideal Obturation Material :**

Easily manipulated
Dimensionally stable
Seals
Non-irritating
Impervious to moisture
Bio-compatible
Radiopaque
Sterile
Easily removed

ECCO- 113496 Gutta Percha Obt System Pen US$ 475.00

Cordless Gutta Percha Obturation System Pen #113496

Includes:
Oburation Pen - Charging Base - Adapter

*Fantastic combination of filling method of vertical compaction and backfill
*Easy and quick obturation with accurate and predictable filling.
*Excellent apical control & obturation of anatomically complicated canals
*Easy to learn and operate
* Compact design comply with standard of human engineering

Distinctive Features:
1. The type F (the thinnest) heating pen tip can be twisted to be suitable for lateral branch root canal. This is very important for vertical obturation.

Charging system
1.Operating Voltage DC.3.6V
2.Adaptor Input: AC 100-240V Output: DC 4.5V
3.Charging time 4 hours
4.Continuous heat-up time for for pen after fully charing 30minutes

Obturation Pen
1.Temperature sensor IC type
2.Heating time 2 Seconds
3.Temperature range 150-350 ?

Battery (Li-on)
1) Capacity: DC3.6 V 2.2AH
2) Dimension: ?19 *65 ?3pcs total?
3) Operating condition: Temperature 5 ?-40?

ECCO- 102222 Gutta Percha Obturation System US$ 875.00

GUTTA PERCHA OBTURATION SYSTEM
Oburation Gun
Oburation Pen
Gun Needles x 3pcs
Charging Base
Adapter
Heat Insulator x 2pcs
Stand for Gun
Stand for Pen
Pen Tips x 4pcs
Battery x 3pcs
Accessory Tool
Brush x 2pcs
English Manual

FEATURES:
*Perfect Cordless 3-Dimensional Obturation System
*Fantastic Combination of Filling Method of vertical Compaction and Backfill
*Excellent Hermetic Sealing with 3-Dimensional Filling
*Excellent Apical Control & Oburation of Anatomically Complicated Canals
*Condensed Gutta Percha Makes Fill Oburation
*Digitizing Temperature Display Contributes to Convenient Setting of Temperature
*Easy to Learn and Operate

CHARGING SYSTEM:
*Operating Voltage DC 3.6V

*Adapter Input: AC 100-240V Output: DC 4.5V
*Charging Time 3 Hours
*Continuous Heat up Time for gun after fully charging 60min
*Continuous heat up Time for pen after fully charging 40min

Oburation Gun:
*Heater DC 3.6 V 8W
*Temperature Sensor Thermocouple
*Heating Time 2 min
*Temperature Range 50-200 Degrees Celsius

Obturation Pen:
*Temperature Sensor K Type
*Heating Time 2-10 Seconds
*Temperature Range 150-350 Degrees Celcius

Battery (Li-on):
*Capacity DC 3 3.6V 2.2AH
*Dimensions 25 x 75
*Operatuing Condition Temperature 0-40 Degrees Celcius

Reamers SS & NiTi

ECCO NiTi REAMERS FILES 21mm

- For safe root canal preparation with a reaming motion
- NiTi with improved handleIso
- 150-40 square cross-section for better fracture resistanceIso
- 15-40 triangular cross section for better cutting efficiency
- Instrument type and iso size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on habdle
- Special steel alloy with uniform structure for maximum
- Resistance to fracture and maximum flexifility
- The non cutting tip guides the intrumentsafely along the canal
- With pre-mounted silicone stoppers
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Box of 6 pieces

ECCO St Steel REAMERS FILES 31mm

- For safe root canal preparation with a reaming motion
- Stainless steel with improved handlelso
- 150-40 square cross-section for better fracture resistancelso
- 15-40 triangular cross section for better cutting efficiency
- Instrument type and iso size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on habdle
- Special steel alloy with uniform structure for maximum resistance to fracture and maximum flexifility
- The non cutting tip guides the intrumentsafely along the canal
- With pre-mounted silicone stoppers
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Box of 6 pieces

Etching Materials

Acid Neutralizer

ECCO-567320 Acid Neutralizer 4x1.2cc Syrin

US$ 20.53

Ecco-Acid Neutralizer Mini Dental kit of 4 x 1.2cc Syringes + 20 tips - [J# - 567320] - In additin to rubber dam- use acid neutralizer to surround and protect tissue areas where hydrofluoric acid is used - use acid neutralizer remaining acid before removal -

Etching Materials

Endo-Prep

ECCO-567270 Endo Prep 4x1.2cc Syringes

US$ 27.77

Ecco-Endo Prep 4 x 1.2cc syringes + 20 tips - etch - [J# - 567270] - endo prep is a 20% edta viscous solution used to chelate- lubricate and debrite root canal preparations - apply endo prep directly into the canal orifice or onto endodontic files

Etching Materials

Eugenol

ECCO-585895 Eugenol 30 cc bottle

US$ 0.00

Ecco-Eugenol 30cc bottle - etch - [J# - 585895] - oil of eugenol is used as a pulp sedative and as a temporary cement -

Etching Materials

Fluorhydric Acid for Porcelain

ECCO-567310 Porcelain Etch 4x1.2cc Syringe

US$ 44.68

Ecco-Porcelain Etching 4 x 1.2cc syringes + 20 tips - etch - [J# - 567310] - 9.6% hydrofluoric acid is used to etch porcelain and composites - neutralize acid- wash- dry- apply silane- and then bond restoration - - caution: both dentist and patient must be properly protected from hydrofluoric acid - neutralize completely with acid neutralizer before removing -

Etching Materials

Glycolic Acid

ECCO-567330 Glycolic Acid 2% 4x1.2cc Syrin

US$ 12.68

Ecco-Glycolic Acid 2% 4 x1.2cc Syringes + 20 tips - etch - [J# - 567330] - 2% glycolic acid is used to remove the outer dentin smear layer from crown preparations before taking an impression - apply to preparation and then rinse with water -

Evacuation Systems

CENTRIFUGAL DRY VACUUM SYSTEMS (TECH WEST)

These high performance vacuum systems are designed to provide continuous suction while moving large amounts of air. Our dual centrifugal vacuum systems are designed to meet the demands of up to 120 simultaneous users. Large dental groups, dental schools, and hospitals are typical users of these vacuum systems.

Features and Benefits:

Magnetic motor starters with overload protection of your motors and electrical components from power surges.
All dry vacuum systems are wired for low voltage control to allow use of 24V remote switching in the office.
Compact skid mounted design unit is completely plumbed and wired, ready for installation
Energy efficient turbine style motors. This aids in lower electrical consumption and large savings to you!
High performance turbine style motor design ranging from 2HP to 30hp.
Continuous air flows ranging from 20 SCFM to 1200 SCFM while holding 7-8 inches of mercury.
All stainless steel separator tanks have an auto tank wash down system standard
All full system come standard with one or two stainless steel separator tanks.
All full system have the motor controls fully pre-wired and all plumbing connections made.
A Full Two year warranty!

US DENTAL DEPOT is an Authorized Tech West Dealer in US.

Evacuation Cleaners

BIOPURE- 113744 Comp Evac System Cleaner 14oz

US$ 79.80

Biopure- Evacuation System Cleaner 14oz Bio-Pure is All Natural. No More Chemicals. Our propriety blend of microorganisms feed on the organic material that passes through the suction lines. Not trapping them like other cleaners. Bio-Pure cleans the way nature intended by breaking down and digesting the organic material. #EVC-14**Biopure- Evacuation System Cleaner 14oz #EVC-14**

Bio-Pure is a triple-action, 100% All Natural evacuation system cleaner that breaks down, removes and digests organic waste. Bio-Pure restores vacuum line suction, eliminates daily trap hand cleaning & continues to clean between uses.

Bio-Pure is 100% safe for humans, animals and the environment. Bio-Pures efficiency and ease of use simplifies equipment upkeep, eliminating costly maintenance, repairs and downtime. Feedback from Dental practices using Bio- Pure is clearly indicative of the leading place Bio-Pure Evacuation System Cleaner is destined to hold.

Us Dental Depot is an Authorized Dealer in USA and exclusive representative Dealer in South America.

Evacuation Systems
UNITS

ECO-VAC DRY VACUUM SYSTEMS (TECH WEST)

We utilize a Variable Frequency Drive (VFD) to control the vacuum levels. With no suction being used, the motor is running one third the speed and using very little power. Every time a suction hose is being used the motor automatically speeds up to maintain constant suction. Maintenance free unit with no traps to clean, no oil to check or change. Truly a ZERO maintenance machine.

Saves over 50% on electricity costs when compared to simular vacuum pumps
Zero water usage saves water and sewage costs
Dry turbine suction uses no oil like some others
Eliminates maintenance costs and keeps the oil vapors from the equipment room and environment
Integrated amalgam separator to remove mercury waste (optional)
Very quiet operation at only 62 decibels

LIQUID RING VACUUM SYSTEMS (TECH WEST)

Tech Wests Dental Pumps have proven to be unsurpassed in technology and performance providing a vacuum system you can rely on for years to come without expensive repairs or maintenance costs.
At Tech West our vacuum systems can be custom designed to fit any need, application or number of users.

-Dynamically balanced impellers for smooth and vibration free running.
-Advanced design impeller chamber, ported to pump out water fast without concern of shaft or motor damage.
-Large solids collectors with clear bowls for easy cleaning and maintenance.
-Energy efficient motors with cap-star cap run for lower electrical consumption.
-Air water separators come standard on all dual and triple models.
-Air water separators enable evacuated gases (like nitrous) to be vented out of the building.
-Water recycler option available for all vacuum pumps.
-All vacuum pumps are wired for low voltage control.
-Allows use of 24V remote switching in the office.
-Ramp injection porting for faster air flow and suction recovery.
-Large 1/2" stainless steel shaft tip with a one piece design.
-Exceeds NFPA 99C Guidelines.
-5 Year Warranty on motor shaft, 4 Year Warranty on the brass components, and 3 Year Warranty on all other components.

US DENTAL DEPOT Inc is an Authorized Tech West Dealer in US.

Gingival Mask & Lab Putty

Mask Silicone

ZHERMACK- 111389 Gingifast Elastic Stand Pack

US$ 42.50

Gingifast Elastic Std Pack (2x 50 ml cartridges / 12x Yellow Mixing tips / 12x Intra Oral tips / 1x 10 ml separator bottle with pump spray) [Z# C401500] **Description:**
Laboratory A-Silicone for gingival reproduction for models in fixed prostheses. Elastic type

Advantages:
The high elastic module facilitates model removal and reinsertionExcellent aesthetic result due to its translucency characterized by veining Precision and dimensional stability Can be used both with direct and indirect technique

Characteristics:
Addition silicone formulation in a cartridge

ZHERMACK- 106929 Gingifast Seperator - 10ml

US$ 3.34

Gingifast Seperator - 10ml bottle + 1 spray pump - (Z# C400887) For gingival mask - 10ml [Z# 400887]

Gingival Mask & Lab Putty

Silicone Lab Putty

ZHERMACK- 111388 Gingifast - Rigid Stand Pack

US$ 42.50

Gingifast - Rigid Standardd Pack (2x 50 ml cartridges / 12x Yellow Mixing tips / 12x Intra Oral tips / 1x 10 ml separator bottle with pump spray) [Z# C401520] **Description:**
Laboratory A-Silicone for gingival reproduction on models. Rigid type

Advantages:
Easy to trim
permits accurate margin definition
Indicated for implant prosthetics
Precision and dimensional stability

Characteristics:
Addition silicone formulation in a cartridge

Handpieces for Clinic

Bearings for handpieces

CERAMIC BEARINGS (Ecco)

ECCO High-speed Dental miniature ball bearing of high precision grade P4 (ABEC 7) 9Cr18Mo, and Si3N4to be perfectly usable for high speed dental turbine handpiec. Product Specifications- Rotating speed 350,000-450,000 rpm under air-pressure of 35 lb- Working life for more than six months under the normal operation (If made with ceramic bearings)- Corrosion resistant, High-temperature resistant (autoclavable , when separator (cage) is Torlon)

High performance reliable handpieces at an affordable price
The Pana-Max PLUS series of high speed handpieces has been enhanced to meet expectations in modern dental surgeries. Precision engineered to offer the power and reliability required to perform clinical procedures. The new Pana-Max PLUS turbine cartridge delivers increased smoothness, while the bur retention system has been engineered to securely retain the bur under increased torque loads. The stainless steel body is comfortable in the hand

and is angulated at the optimum degree for excellent direct visibility of the operating site, without compromise.

High performance reliable handpieces at an affordable price
The Pana-Max PLUS series of high speed handpieces has been enhanced to meet expectations in modern dental surgeries. Precision engineered to offer the power and reliability required to perform clinical procedures. The new Pana-Max PLUS turbine cartridge delivers increased smoothness, while the bur retention system has been engineered to securely retain the bur under increased torque loads. The stainless steel body is comfortable in the hand and is angulated at the optimum degree for excellent direct visibility of the operating site, without compromise.

(ORIGINAL NSK - MADE IN JAPAN - SEALED BOX - FACTORY WARRANTY)

NSK- 102011 Air Motor Pack 2H + Cont unit

US$ 526.56

EX-203 B2 Air Motor Pack Complete (also called Kit, or Set)
NSK ORIGINAL - NEVER OPENED - FACTORY SEALED MADE IN JAPAN

22.000rpm 2 Holes Air Motor+ Handpiece and Contrangle
---Micro Neumatico Clinica kit completo - [2 Holes Air Motor+ Pieca de mano y contrangulo] ---

This complete kit includes
Low speed handpiece,
Contra angle,
Low speed dental air motor.

Features:

Contra angle and handpiece

Max Speed 22,000-27,000 rpm.
The shank of the instrument mounted therein is 2.35 mm
Fastening of the instruments with a turning latch
Autoclavable 135C
Good for For any lab or E-type motors

Air Motor
Working pressure: 0.3MPa (4-hole); 0.25MPa (2-hole)
(Measure meter is installed at the end of air motor to measure the air pressure).
Revolution: about 22000-27000r/min (adjustable between clockwise or anticlockwise switch on the motor)
Noise: ?68dB
Air consumption: about 56L/min
Ratio: 1:1 Direct Drive
Max speed of contra angle: 25000rpm/min.
Air Mortor part number # EX-203

Supply air pressure: 245-392KPa (2.5-4kgf/CM2)
1:1 Direct Drive

Handpieces for Clinic

Handpieces Optical

ECCO-114035 GEN Led Hndpc E-Generator 4H

US$ 275.00

Ecco-GEN-P-4H Handpiece E-Generator (LED Light included)
This handpiece has an internal generator that produces the necesary power for the LED on the handpiece tip

No Fiber Optic Necessary !
No Special Installation
No Technical assitance
15 seconds conection and you are good to go !

GEN-P is the latest in the popular ECCO series of high speed handpieces. Every feature of GEN-P handpiece is precision engineered to deliver enhanced performance with the reliability and durability ECCO users expect. The cost versus performance ratio puts the GEN-P series at the highest level within its class.

3 sprays- Push Button
Standard Head - Ceramic bearings
4 holes (Midwest compatble)
Replacement cartridge

The differences between a fiber optic handpiece and a self illuminate handpiece:

A fiber optic handpiece gets light from the fiber optic circuit board inside the dental unit. (The circuit board transforms electricity to light).
A self illuminate handpiece has an electric generator inside, which transforms air power to electricity and to light.

A fiber optic handpiece requires the dental unit to be equipped with fiber optic circuit board and 5/6 hole hose.

Self illuminate handpiece (E-Generator) doesn't need those equipments, its fitting is like a normal handpiece, which attaches to a normal 4 hole or 2 hole hose.

Replacement Parts Available:
Cartridge Canister -Item Number: 113915

ECCO-112241 Z3 Led Handpiece E-Generator

US$ 275.00

- 1.5 x Power Line - Optic Connection (Power in DC)

ECCO- 112374 Z4 Led Handpiece E- Generator

US$ 236.22

Ecco-Z4 Led Handpiece E-Generator . Push Button - Semi Torque Head - Ceramic bearings - 2H 2 holes (Borden compatble) Replacement cartridge : # 1 1 2 3 7 5 **ECCO-Z4 HANDPIECE E-GENERATOR #112374**

Z4 E-Generator LED Dental handpiece brings light to dental offices that have been using regular handpieces . It has an internal air driven power motor which supplies LED lighting on the tip of the handpiece. Almost eliminates the need of external light for a proper view .
The truly innovative design of this handpiece incorporates Z4 powered by its own miniature built-in generator. This cutting edge technology allows the operator to have a clear illuminated operative field without the electrical requirement of current power optic systems. The Z4 is brighter with a larger light pattern than the traditional power optic systems

Innovative Simplicity The drive air rotates the miniature generator. The electricity generated illuminates the Z4 that is optimally positioned on the face of the handpiece, providing daylight bright illumination. It is so efficient there is no loss of air pressure or torque, and the three coolant water ports provide the desired coolant spray pattern.

- Less weight on operators hand /wrist
- E-Generator power instead of external light source.
- Natural light
- Ergo Grip: Secure Grip for your confidence
- Triple water spray

USES REGULAR PO14C Turbine Canisters

Technical Features
-Operating air pressure: 0.25-0.3Mpa (0.3MPa preferred)
-Air consumption: 55L/min
-Speed of generator: 25,000-30,000 R.P.M
-420,000 r.p.m for standard head
-Ceramic Bearings: Quieter and longer life
-Push button
-Noise level: Less than 68 dB
-Chuck power: 20-45N
-Net weight: 88g

ABUTMENTS TRILOBE NOBELREPLACE

The XP-SIMPLANT assorment of Standard Compatible Abutments offers abutment solutions for most Nobel Biocare clinical indications.
The portfolio includes all the components needed to support temporary and final, single-unit to full-arch restorations.

All abutments are delivered with abutment screws

Compatibility
Abutments and components have been designed to work with the versatility of each Nobel Biocare implant system and its respective prosthetic connection.

Quality and fit
Precision milling ensures that abutments are made with a high quality finish and precision of fit de originals NobelReplace system .

Strength
Abutments are manufactured from biocompatible materials that have been tested for strength and durability.

Included Items in all our prosthetic features :

Fixation Screw 1.25mm (0.50in)
Real shape might differ from the diagram. To check real shapes please click on each individual item.
Nobel Biocare and Nobel Replace are Trade marks of Nobel Biocare company

ESTHETIC ABUTMENTS

Titanium abutment for single- and multiple-unit

Excellent esthetic results in all indications.
Cement-retained restorations
Scalloped margin designed to profile natural soft tissue contours.

Bite Impresion Material

BITE REGISTRATION MATERIAL (Defend)

Mousse-like and Thixotropic, fluffy vinyl polysiloxane material.
Used for bite registration, copying transfers, and primary impression with bite trays.
Thixotropic material has an excellent durometer of over 80 and flows easily, yet will not run or sag.

Our Hard Bite material #9010 can be used in conjunction with all laser CAD/CAM systems.

Size: 2/pk w/6 Mixing Tips
Weight: 1 lbs

Laboratory Furniture

Scale

KEYSTONE- 112213 Mini Pocket Scale

US$ 63.89

Keystone - Mini Pocket Scale **Keystone - Mini Pocket Scale #1050090**

- Pocket-size digital electronic mini scale
- Battery operated (lithium cells)
- High precision strain gauge sensor
- Auto off and manual off
- Capacity - 200 grams
128.7 dwt. - 6.432 oz.
- Excellent for weighing wax coping for pressable ceramics and all dental alloys

LASER

SAPPHIRE - 113808 Sapphire Portable Diode Laser

US$ 2,400.00

Sapphire Portable Diode Laser - The Sapphire Portable Diode Laser is indicated for use in dental intraoral soft tissue general- oral maxilla-facial and cosmetic surgery including ablating- incising and excising. **Denmat- Sapphire Portable Diode Laser # 033981000-0**

Compact. Easy-to-use. Affordable. The Sapphire Portable Diode Laser makes the benefits of laser dentistry available to more patients than ever before. Bring this powerful technolgy to your practice and experience the future today.

-The ideal laser for both a first-time user and the seasoned dental laser practice.
-3 watts continuous wave output, with 5 watts peak pulse power, 808 nm wavelength.
-Disposable tips - No stripping or cleaving.
-Portable, with a long use battery.
-Finger-touch control, with an optional foot pedal.

The Sapphire Portable Diode Laser unit is a dental soft-tissue laser surgical/debridement device. The Sapphire Portable Diode Laser may be used for a variety of soft-tissue, gingival modification, and sulcular therapy procedures.

Loupes & Magnifiers & Lights

HEINE- 5096560 3S LED Headlight Battery Hdset

US$ 1,598.99

3S LED Headlight Battery- Headset with light- Battery operated [H# J-08.31.313] [HS# 5096560] [porta bateria] [fronto lux -luz quirurgica - lupa - magnificador - magnifier] **HEINE 3S LED HeadLight #5096560**

Ultra-bright 3SLED HeadLight for powerful, coaxial illumination

Powerful LED Illumination

50.000 Lux of bright, white light.
Stepless light intensity control. Optimal brightness setting prevents refl exes.
Precision iris aperture adjustment. Small diameter is ideal for ENT and Dental Applications.
Flexibility. Mains or portable power supply. Integrated attachment option for HR / HRP Binocular Loupes and Prism optics for Video adaption.
Viewing Angle adjustable over a wide range.
Multi-coated glass optics for maximum brightness.

Technical Specification:
Illumination 50 000 Lux at a working distance of 250 mm.
Colour Temperature 6,250 Kelvin
LED Operating Life 1 W Super-High Output LED rated at 50,000 hours operating life
Spot Adjustment 30 mm to 80 mm at 420 mm working distance
Angle of Declination Individually-adjustable for every examination
Rheostat Headband-mounted

Contains:
- 3S LED HeadLight, battery pack and transformer.

ASEPTICO - 113490 AEU-5000 Electric Oper Motor

US$ 1,820.00

ASEPTICO- AEU-5000 Electric Oper Motor - 110volts - no handpiece included - --- this equipment transforms an AIR motor into an electric motor - It will use the Air and water from the existing system for the lubrication - refrigeration etc - and Handpiece will be moved by electric motor with E-Type conection - Regular contrangles can be conected too - the same as the electric contrangle Montblanc -**AEU-5000 Electric Operative Motor (Handpieces sold separately)**

Compact, easy-to-clean console
Powerful, brushless, 40,000 rpm, autoclavable micromotor
Innovative LED technology yields the brightest handpiece illumination in the industry!
Fiber optic intensity adjustment
Endo functionality

Digital torque control
Large, easy-to-read, back-lit display
Intuitive user interface with large buttons
Compatible with E-type handpieces for highspeed, lowspeed, Endo, and a variety of other dental applications
- Increaser 1:5, 1:2
- Standard 1:1
- Reduction 5:1, 8:1
Enable or disable any of the above handpiece ratios so that only user-desired handpieces are selectable on the display. No other electric operative motor allows this level of customization!
Air/water irrigation through the micromotor and 1:5 increaser, 1:1 and 5:1 reduction handpieces
Five programmable presets per handpiece ratio
Attach to any Midwest 4-hole air connection; uses your disk-type foot control for operation

ART- 101245 BMT E-Type Handpiece

US$ 202.80

- Electric powered polisher system
- Lightweight,compact, stylish and modern look
- Provides powerful polishing performance
- Systems features - Built in Digital Display of the motor rotational speed
- Automatic Feedback Control with Powerful Torque
- Low Speed with High Torque Features; 0-35,000 RPM of Speed Control;
- No heat generation of hand piece even after prolonged use
- Product Dimensioin: 19.2cm x 15.5cm X 8.5cm
- Hand piece Cable Length: 2.5m Weight: 3.7kg with motor
- Voltage: Available in 100, 110, 220 & 240Volts
- Cycle: 50/60Hz Power: 30w
- Polisher Speed: Up to 30,000 RPM

Ratio selection:
- Implant Mode: 1:5, 1:2, 1:1, 20:1
- Endo Mode: 8:1
Calibration technology for accurate speed and torque performance
Five programmable preset buttons for storing settings in memory
Upgradeable software for a longer return on investment
Fully integrated, easy-load irrigation pump

Adjustable torque:
- Implant Mode will reach torque up to 50 Ncm, which enables a single, high-efficiency 20:1 reduction handpiece (AHP-85MB) to be used for the complete implant procedure.

- Endo Mode will reach torque up to 1000 g-cm using 8:1 reduction handpiece
Automatically switches between Endo Mode and Implant Mode based on selected handpiece ratio
Powerful, brushless, 40,000 rpm, autoclavable micromotor
Selectable Auto-Stop function in Implant Mode and Auto-Stop- Reverse in Endo Mode when desired torque setting is reached
Contemporary design with easily cleaned surfaces
Large, bright, easy-to-read display
Intuitive user interface that features adjustable handpiece ratio, speed, torque, and irrigation flow settings

Autoclavable motor holder may be free-standing or mounted to either side of the console
Includes AE-70V Multi-Function Foot Control with Pump On/Off, Flow Rate, Micromotor Direction, Preset Selection, and Torque Cycle buttons
Includes autoclavable tubing set for standard irrigation bags; optional tubing set accommodates rigid irrigation bottles
Auto-sensing global voltage compatibility

FDA, UL, and CE compliant
Manufactured in the USA

ASEPTICO - Implant Surgery System with Ae-7Pm Footswitch [[fisiodispenser surgicl unit]]**ASEPTICO - IMPLANT SURGICAL SYSTEM #AEU-7000**

Aseptico's newest electric implantology/oral surgery system delivers state-of-of-the-art functionality at a great price!

FEATURES INCLUDE:

-Powerful brushless 40,000 rpm autoclavable micromotor
-Variable handpiece ratio selection for 1:5 and 1:2 increases, 1:1, and 20:1 reduction E- type handpieces
-Adjustable torque up to 60 Ncm enables a single, high-efficiency 20:1 reduction handpiece (AHP-85MB OR AHP-85MB-C) to be used for the complete implant procedure
-Advanced dynamometer calibration system accurately measures the properties of the motor and handpiece prior to use.
-Selectable auto-stop function when desired torque setting is reached
-Contemporary design with easily cleaned surfaces
-Fully integrated, easy-load irrigation pump
-Large, bright, easy-to-read display
-Intuitive user interface that features adjustable handpiece ratio, speed, torque, and irrigation flow settings
-Six programmable preset buttons for storing and labeling custom settings in memory. Presets may be labeled according to technique-specific preferences
-Autoclavable motor holder may be free-standing or mounted to either side of the console
-Upgradeable software for a longer return on investment
-AE-7PM On/Off Foot Control (AEU-7000 only)
-Autoclavable tubing set for standard irrigation bags;
-Optional tubing set accommodates rigid irrigation bottles
-Auto-sensing global voltage compatibility
-FDA, UL, and CE compliant
-Manufactured in the USA

High Performance, state-of-the-art functionality
--Handpieces sold separately--

Features include:

LED handpiece illumination
Compatible with most brands of fiber optic & non-fiber optic 1:5, 1:1 & 20:1 E-type contra angles
LED intensity is fully user-adjustable and savable to presets
Virtually maintenance free! Never change a bulb or worry about delicate fiber optic cabling
Switch between Endo Mode and Implant Mode at the touch of a button
Powerful brushless 40,000 rpm autoclavable micromotor
Variable handpiece ratio selection: 1:5, 1:2, 1:1, 8:1 and 20:1 E-type handpieces
Advanced dynamometer calibration system accurately measures the properties of the micromotor and handpiece prior to use for ratios between:
- Implant Mode 16:1 - 32:1
- Endo Mode 4:1 - 16:1

Adjustable torque:
- Implant Mode will reach torque up to 60 Ncm, which enables a single, high efficiency 20:1 reduction handpiece (AHP-85MBFO-CX) to be used for the complete implant procedure
- Endo Mode will reach torque up to 1000 g-cm using 8:1 reduction handpiece
Selectable Auto-Stop function in Implant Mode and Auto-Stop-Reverse in Endo Mode when desired torque setting is reached
Contemporary design with easily cleaned surfaces
Fully integrated, easy-load irrigation pump
Large, bright, easy-to-read display
Intuitive user interface that features adjustable handpiece ratio, speed, torque, and irrigation flow settings
Six programmable preset buttons for storing and labeling custom settings in memory. Presets may be labeled according to technique-specific preferences
Autoclavable motor holder may be free-standing or mounted to either side of the console
Upgradeable software for a longer return on investment
Includes AE-70V Multi-function Foot Control with Pump On/Off, Micromotor Direction, Preset Selection, and Torque Cycle buttons
Includes autoclavable tubing set for standard irrigation bags; Optional tubing set accommodates rigid irrigation bottles (PN: AE-23-BOT)
Auto-sensing global voltage compatibility
FDA, UL, and CE compliant

Motor Speed : 200~40,000 min-1

Foot Control:
Speed Control : Variable
Foot Control Functions : Speed Control, Coolant Control, Forward / Reverse, Program control
Applied Standard : IPX8

The smart reliable surgical micromotor that follows your exact command.

At first sight the NSK Surgic XT is impressive. The compact minimal style console, and robust foot control module, have been designed especially for the aseptic environment. The smart programmable electronic system responds instantly to human commands, allowing uninterrupted focus on surgical procedures. The Surgic XT micromotor effortlessly endures prolonged surgical procedures, without significant heat generation, and is ergonomically designed to adapt comfortably to the human hand form. NSK technology confirms Surgic XT as your most reliable partner in the precision surgical environment of modern oral surgery.

Features:

. All program adjustments can be performed hands-free via the foot control
All operating program and control modes may be set or adjusted hands-free, during surgery via the foot control. This includes speed control, coolant flow, and direction of rotation. The foot control has been designed to prevent accidental activation of the micromotor system. The robust and durable foot control has been produced with a non-slip under surface to prevent sliding on all floor surfaces.
. NSK Surgic XT brushless micromotor-High power 210W-Powerful torque 50Ncm-Lowest noise and vibration
The wide variable speed range of 200-40,000rpm provides the flexibility for all surgical procedures. As an example, by using a 20:1 speed reduction handpiece attachment the speed range is adjusted to 10-2,000 rpm and torque is maximized to 50Ncm. The NSK Surgic XT micromotor produces the lowest noise and vibration in this class.
. NSK superior technology results in a slim ergonomic micromotor with remarkably high power
Compact and virtually vibration free, the NSK Surgic XT is designed to fir comfortably to the human form for prolonged periods. The size and comfort of the brushless micromotor is achieved without compromise to the torque and speed output. Durability is assured even with repeated autoclaving.
. The large LED display offers immediate recognition of the selected operational program details
The selected operational program, including speed, torque, coolant flow, forward/reverse direction, gear ratio, and program number is shown in large LED display. During reverse mode, intermittent beeps sound as a safety precaution. By adopting the bar graph, the running speed or torque will be shown as a percentage of the maximum speed or torque setting.
. Effective adjustable coolant solution delivered by a powerful and reliable pump
Coolant low volume may be controlled to any of 5 settings, or stopped. During surgery, coolant low can be adjusted or stopped via the foot pedal.
. Automatic calibration of every individual handpiece attachment
Every handpiece attachment has individual resistance characteristics against micromotor driven rotation. To achieve the precise rotary cutting speed and torque demanded for oral surgical procedures, NSK Surgic XT automatically calibrates the micromotor to the resistance of each individual handpiece when attached to the micromotor
.Autoclavable quick connect cable is convenient and time-saving
A simple Quick Connect cable system allows immediate interchange of the cable and micromotor during treatment. The cable and micromotor can be repeatedly autoclaved.

Xcube Saeshin Implant motor complete - with contrangle - 110v shipping weight 17lbs - (8*8*12 in) Fisio dispenser**X-CUBE Implant Motor with Reduction Contrangle**

THIS IS A BRAND NEW ORIGINAL SAESHIN IMPLANT MOTOR.
NEVER OPENED , NOT REFURBISHED, WITH ONE YEAR FULL WARRANTY BY SAESHIN IN THE US.

Includes : Reduction geared contra angle with internal and external irrigation
Push button & lever type
*** Reduction ratio availabe for your choice 16:1/20:1/32:1/64:1 (one choice) Standard: is 20:1**
*** Autoclave repeatable Surgical BLDC Brushless Motor**
*** Speed control from 600 to 50,000 rpm and strong torque**
*** Speed control from 18- 1560 rpm at 32:1 ratio recomended for implant positioning**
*** No noise and vibration helps to improve the concentration in surgery**
*** Ergonomic foot control pedal**
*** 10 program memory for setting the speed, torque, operation direction, water pump Quiet and strong water pump(5stage-control)**
*** Automatic ovrload control and easy releasing of overload (just one touch of pedal control)**
*** Easy and quick operation of every function during surgery**
*** Compact designed control box with various functions**
*** Eye-appealing LCD and simple interface**
*** 10 kinds of gear ratio setting**
1:5/1:4/1:2/1:1/1:16:1/20:1/27:1/32:1/64:1/256:1
*** 10 program memory for setting the speed, torque, operation direction, water pump Quiet and strong water pump (5stage-control)**

ESPANOL
Incluye contrangulo reductor con irrigacion interna y externa, push button o de manija a su eleccion.
*** Grado de reduccion de conrangulo disponible a eleccion 16:1/20:1/32:1/64:1 (one choice) Standard: es 20:1**
*** Motor BLCD sin carbones Autoclavable muchas veces**
*** Control de velocidad de 600 a 50,000 rpm y gran torque**
*** a 32:1 de contrangulo, control de velocidad entre 18- 1560 rpm , lo recomendado para**

posicionamiento de implantes
*** Sin ruido ni vibracion mejora la concentracion quirurgica**
*** Pedal de Control ernonomico**
*** 10 programas en memoria para seteo de velocidad, torque , direccion de operacion , bomba de agua . Bomba de agua potente con 5 posicionamientos de poder**
*** Control automatico de sobrecarga del motro, facil reactivacion de funcionamiento sin dejar la pieza de mano, (solo un toque en el pedal de control)**
*** Facil y rapido control de funciones desde el panel durante el actoquirurgico**
*** Deisneo compancto de unidad de control con numerosas funciones**
*** Panel de contrl de LCD de gran estilo y facil manejo**
*** 10 tipos de seteo de reduccion**

ASEPTICO - 111234 Air Portable Field Sink

US$ 5,113.89

ASEPTICO - Command Air Portable Field Sink 6520-01-456-5380 **ASEPTICO - Command Air Portable Field Sink**
Description:
Unit can either be operated electrically or with manual foot pump - Hands free washing.
Electric heater and pump provide warm water with convenient foot switch.
System uses standard military water containers for water supply and waste disposal.
Water and waste lines are not interchangeable and have anti-retraction check valves to protect against cross contamination.
Stainless steel side tray (6 1/2" x 10") mounts either side. Sink legs quickly snap in and out of base and store in case lid.
Adjustable water flow to a maximum of 2.2 liters per minute.
Dual voltage; 120/220 - 50/60 Hz.
Designed for easy maintenance. (#ADU-40CF)

Dimensions:
19 x 19 x 15, 3.13 cu. ft. (48 x 48 x 38 cm)
Weight: 50 lbs (22.5 kg)

US$ 10,795.51

ASEPTICO - Expedition Unit-Military #AEU-14CF **ASEPTICO - Expedition Unit-Military #AEU-14CF**

Description:
In response to the Military's demand for an ultra lightweight emergency dental unit, Aseptico has developed the AEU-14CF Expedition Field Dental System. Weighing under 25 pounds, the Expedition is light and compact enough to be carried in a backpack and deployed into the field of operation along with the medical support team.This unique electric dental system can be powered via AC power source, 12 or 24V vehicle battery, or from its two rechargeable battery packs. For maximum flexibility in the field, the battery packs may be recharged using the included solar panel, vehicle battery, or AC power source. Each battery pack provides power for approximately 20 patient procedures.

AHP-72MBFO 5/1 Fiber-Optic Increaser
Handpiece AHP-101 1/1
Straight Handpiece
Handpiece irrigation system AE-200-30 30,000 rpm
autoclavable micromotor withlight & irrigation
3-way air/water syringe Integrated compressor for irrigation & syringe
Operates from rechargeable battery packs,
AC outlets,12 or 24 V vehicle battery Battery packs recharged via solar panel (included),
vehicle battery, or AC power source 120 / 220 V dual voltage Weighs under 25 lbs (11.25 kg)

Dimensions:

16.2" x 12.7" x 6.5" (41 x 32 x 16.5 cm) Noise Level: 64 dB Water Reservoir: 16 fl. oz. Air Reservoir: 16 fl. oz.

ASEPTICO - Transport II Dual Vol Military Unit 115/220V #AEU-425CF **Transport II Dual Vol Military Unit 110/220V #AEU-425CF**

Aseptico's new lightweight Transport MDS Electric Military Field Dental System is a result of years of analysis, design, engineering and testing. The Transport MDS provides for a broad range of dental procedures to be performed in the field including general dentistry, oral surgery, endodontics and general hygiene.

-3-way autoclavable syringe
-Autoclavable 30,000 RPM motor
-Accepts all E-type handpieces
High & low volume evacuation Self contained water supply
-Self contained air compressor
-On/off foot switch High impact case
-Four ratio settings: 5/1, 1/1, 1/4, 1/16
-Piezo ultrasonic scaler
-Accepts 110V or 220V power source
-Optional power inverter with NATO connector allows Transport MDS to be operated from 24 volt military vehicle's power generation
-Optional version AEU-425CFH includes five handpieces
Weight: 84 lbs

ASEPTICO - 111244 X-Ray Mini Hf70D Hand Held 110

US$ 16,900.00

ASEPTICO - X-Ray Mini Hf70D Hand Held 110 V **Description:**
The ARU-HF70D is the latest in a series of technological advances for portable and hand-held dental radiography. Weighing just 10 lbs (4.5 kgs), this high frequency, full-wave rectified x-ray unit exceeds US Military shielding requirements for safe operation when hand-held by the operator or used with a stand. The ARU-HF70D can be used with film or the latest in digital imaging systems. This x-ray unit is UL-C classified. It is supplied with a dental cone, power and exposure cords and leaded backscatter shield, all of which pack into the military spec. hard shell case. Hundreds of these units are now in service with all branches of the US Armed Forces.
-Output: 10mA @ 60, 65, 70 kVDC
-Exposure Timer: 0.02 - 1.98 seconds, 99 steps
-Inverter Frequency: 70kHz Focal Spot: 0.7mm Available 110-130 VAC , 50/60Hz.
-Comes with leaded scatter shield for additional operator protection
-ARU-01S tripod stores in vinyl carrying case Dimensions:17.5" x 16" x 17",2.75 Cu.Ft. (44.5cm x 41cm x 43cm)Weight: 33lbs. (14.8kgs.)
-X-ray Unit Dimensions: 5.4" x 6.2" x 8.1" (13.7 cm x 15.75 cm x 20.6 cm)
-X-ray Unit Weight: 10 lb (4.5 kg)
-Case Dimensions: 19" x 15.5" x 19"(48.26 cm x 39.37 cm x 48.26 cm)
-Total Weight Packed In Case: 31 lb(14.09 kg)

Mixing bowls

Silicone Mixing Bowls

MIXING BOWL (Renfert)

MIXING BOWL (Renfert)

Ingenious mixing paddle geometry

The ingenious mixing paddle geometry ensures optimum mixing. Because the mixing paddle is as close as possible to the bowl, it takes up as much material as possible (A). The design of the mixing paddle ensures that the material is pushed to the bottom against the centrifugal force (B). The material is mixed most thoroughly at the bottom (C). This also creates pressure that along with the vacuum removes any air bubbles from the material.

Integrated overflow guard

All bowls have marks to indicate the maximum filling capacity so that incorrect use is virtually eliminated. The bowls also have a collection area above the mixing paddle so that inadvertently overfilling them does not cause a problem. A dual valve prevents penetration of dust or mixing material into the vacuum pump. This valve is easily changed and cleaned in an ultrasonic cleaner and this is the only maintenance required.

Mobile Cart System

ASEPTICO - 111219 Compricart II

US$ 2,698.80

ASEPTICO - Compricart II #ADU-20B #ADU-20B**SEPTICO - Compricart II ADU-20B

Aseptico's new ADU-20B dental cart system has a great new head design that allows for easy service access. The cart features a new 'U' shape stand that is height adjustable from 23" to 32" (60 cm to 81 cm). Easily move from room to room, chair to chair. Just quick connect to air source, no junction box required.

Improved chassis design
Automatic dual handpiece selection with individual air and water adjustments
Water on/off and flow adjustment for highspeed handpiece
3-way air/water syringe
1-liter water reservoir
Wet-dry foot control
High volume vacuum and saliva ejector suction

Compatible with Midwest style (4-hole) or Borden style (2/3-hole) pneumatic handpieces. Specify connector type and tubing style (coiled or straight) when ordering
Air pressure gauge
Height adjustable: 23" to 32" (60 to 81cm)
U-shaped base with casters for easy mobility between rooms
Includes Ritter-size stainless steel tray: 13.5" x 9.8" (34 x 25cm)
Quick connect to air source - no junction box required!
Compatible with AA-19A-04 FiberBrite Handpiece Illumination System

Mouth Mirrors

DENTAL MIRRORS (Prima)

PRIMA DENTAL MIRRORS
*12Pk
*Avaliable in:
*Plane Surface - Simple Stem
*Plane Surface - Cone Socket
*Front Surface - Simple Stem
*Front Surface - Cone Socket

What?s the difference between simple stem and cone socket mirrors?
Cone socket mirror heads have a ledge or lip before the thread on the shank.
Simple stem mirror heads have a shank that is straight.

Cone Socket mirror are the ones that have a ledge before the thread on the shank
Simple Stem the thread goes direct on the shank (straight Shank)

Mirrors , depending on their purpose, can be coated on the Front surface or on the back surface .
For more durability they are coated on the back surface, protected by the glass. (Plane surface)
For more accuracy on the light reflection, are coated on the Front surface , so there is less possibilities of getting a scattered reflection after hitting on a rough surface
Also, Front Surface Mirror eliminates the ?ghost image? altogether because the reflecting layer is no longer behind the glass but on its surface. It reflects only once, providing clear vision, free from all distortion.

Plane surface also know as regular mirrors light is reflected from the top of the glass as well as from the silver layer. This causes a double image

Prophy products

PROPHY PRODUCTS (All Brands)

PROPHY ANGLES

Dentists and hygienists all across the country tell us that ECCO-PA performs closer to a metal prophy angle than any disposable prophy angle they have ever used. It runs smoothly, quietly and gets through the prophy every time. ECCO-PA fits most handpieces and is engineered for peak performance.

ECCO-102237 SC-2 Ultrasonic Piezo Scaler

US$ 240.00

WOODPECKER D-1
Characteristic:
- This Product is Mainly Used for Teeth Cleaning and Also an Indispensable Equipment for Tooth Disease Prevention and Treatment. This Scaler Has Scaling and Endo Functions. It Has Automatic Frequency andis Digitally Controlled.

-The optional function of endo. Satelecs tips are compatible.
The handpiece is cast from Titanium alloy to ensure sound mechnic function and durability.
Assembled with excellent piezo-ceramic, the handpiece has high and long lasting power and generates little heat.
-The cable is made from silica gel tube, soft and durable. Five pieces of scaler tips attached: 2 pieces of GD1, 1 piece of GD2, 1 piece of GD3, 1 piece of PD1.
-The scaler tip is made of special material.
-The cavitation produced from the end of scaling makes the cleaning of teeth and the killing of germ easy. Digitally controlled, automatic frequency tracking ensures that the machine always works on the best frequency and more steadily.

-The adjustment range of the amplitude is much wider than before. The new solenoid valve can control the water better.
-The new water control switch makes the adjustment of the water more convenient. Eliminating the dental caculus, bacterial plaque and tea scales on the teeth quickly without hurting the gum or the enamel. Small and light, easy operation.

Feature
- 110/220v- Main Unit
- Adapter of Power Supply
- Foot Switch
- Scaling Tips x 5pcs
- Wrench
- Water Pipe
- Instruction Manual

Silicon Porcelain Polishers

CADMASTER CAD/CAM FINISHING AND POLISHING KITS (Shofu)

CADMaster kits are a complete system for finishing and polishing all porcelains and CAD/CAM restorations in a sterilizable bur block. Developed and tested by leading CAD/CAM trainers, this new series allows users to choose either a two- or three-step procedure. CADMaster kits are easy and fast to use and will achieve superior results on all porcelain restorations.

-Go from sprue cut to high gloss in a two- or three-step procedure
-Adjust, pre-polish and polish
-CEREC and all CAD/CAM systems approved
-Available in a sterilizable bur block
-Use CADMaster kits for: porcelains and enamel

Us Dental Depot is an Authorized Shofu Dealer in US.

Surgical Products

Surgical Dressing

PULPDENT- 101441 Periocare Periodontal Dress 2p

US$ 41.88

Periocare Periodontal Dressing - 2 Paste System
- [P# PC] Highly elastic periodontal dressingwhich sets resiliently hard and does not chip or fall apart in the mouth - It assists in tissue placementafter periodontal surgery and provides durable protection of tissue.
- Does not support the growth ofbacteria - When removing from surgical site the site is clean and the Periocare comes off neatly inlarge pieces.
- After mixing it is ready to pick up with wet fingets 75-90 seconds - 7 minute workingtime - sets in 15 minutes.

Sutures

Absorvable Sutures (Catgut)

DEMETEC- 113785 #4 Chromic Catgut - 4-0

US$ 23.00

DEMETECH- #4 Chromic Catgut 4/0 (2.0 metric) - 3/8 (19mm) Reverse cutting Needle Circle - 45cm long - 12/Bx - Absorbable Sutures
DEMETECH- #4 Chromic Catgut 4/0 (2.0 metric) - 3/8 (19mm)

DemeTech's Chromic Catgut suture is an absorbable, sterile, surgical suture composed of highly purified connective tissue (mostly collagen) derived from either beef or sheep intestines. DemeTech's Chromic Catgut is treated with chromium salt solution to resist body enzymes, thereby prolonging the absorption time to over 90 days.
The pure collagen ribbons are submerged into chromic solutions, then electronically spun and purified into evenly chromicized strands of Catgut. This chromic covering not only prolongs the strand's integrity, but also minimizes tissue irritation, causing less internal reaction.

Reverse cutting Needle Circle - 45cm long - Absorbable Sutures

12/Bx

DEMETEC- 113786 #5 Plain Catgut - 3-0

US$ 23.00

DEMETECH- #5 Plain Catgut 3/0 (3.0 metric) - 3/8 (19mm) Reverse cutting Needle Circle - 70cm long - 12/Bx - Absorbable Sutures
DEMETECH- #5 Plain Catgut 4/0 (3.0 metric) - 3/8 (19mm)

DemeTech'S Plain Catgut suture is an absorbable, sterile, surgical suture composed of highly purified connective tissue (mostly collagen) derived from either beef or sheep intestines. Due to an extremely short absorption period, DemeTech'S Plain Catgut elicits only minimal reaction in tissues. DemeTech'S Plain Catgut is absorbed more rapidly in infected arenas.

Reverse cutting Needle Circle - 70cm long - Absorbable Sutures
12/Bx

Sutures

Silk Sutures

DEMETEC- 113783 #3 Silk Black Braided - 4-0

US$ 23.00

DEMETECH- #3 Silk 4/0 (1.5 metric) Black Braided - 3/8 (19mm)

DemeTech's Silk suture is a non-absorbable, sterile, surgical suture composed of an organic protein called fibroin. DemeTech's silk sutures are processed to remove the natural waxes and gums from its origin.
As Silk is a natural fiber, its does illicit an acute inflammatory reaction, which is followed by gradual encapsulation of the suture by fibrous connective tissue (occurring usually in 14-21 days). While DemeTech's silk sutures are indicated for use in general soft tissue approximation and/or ligation.

Reverse cutting Needle Circle - 75cm long - Non Absorbable Sutures
12/Bx

DEMETEC- 113784 #6 Silk Black Braided - 3-0

US$ 23.00

DEMETECH- #6 Silk 3/0 (2.0 metric) Black Braided - 3/8 (19mm) Reverse cutting Needle Circle - 75cm long - 12/Bx - Non Absorbable Sutures **DEMETECH- #6 Silk 3/0 (2.0 metric) Black Braided - 3/8 (19mm)**

DemeTech's Silk suture is a non-absorbable, sterile, surgical suture composed of an organic protein called fibroin.
DemeTech's silk sutures are processed to remove the natural waxes and gums from its origin.
As Silk is a natural fiber, its does illicit an acute inflammatory reaction, which is followed by gradual encapsulation of the suture by fibrous connective tissue (occurring usually in 14-21 days). While DemeTech's silk sutures are not considered absorbable sutures, progressive degradation of its fibers results in the gradual loss of tensile strength within the first year.
DemeTech's silk sutures are indicated for use in general soft tissue approximation and/or ligation.

Ultrasonic Cleaners

Cleaning Solutions & Tablets

DEFEND- 111373 Enzymatic Tablets 64Bx

US$ 39.95

Asonic Enzymatic Tablets # UT-1000
These easy-to-use enzymatic tablets dissolve in a gallon of water in under a minute to create a powerful and effective ultrasonic cleaning solution. Made from a biodegradable, non-chlorine, non-corrosive formulation that contains fast acting protease enzymes. The solution will greatly assist in the removal of blood, bone, tissue, food particles and other soils that may be resistant to chemical detergents. Virtually eliminates handling and storage of heavy liquid concentrates. Contains a pleasant fragrance and is a neutral pH. May also be used as an instrument pre-soak or as an evacuation system cleaner.

Shipping:

MOUTHGUARDS (Ecco)

ECCO Instant Mouth Guards are Fast, Economical ans cast to construct. They are excellent for orthodontic patients. They firmly adapt to teeth and does not lock on wire. They are also easily trimmed with scissor and used for immediate relief of TMJ. One Minute Mouth Guard Technique:
1. Check Tray in Mouth for Fit
2. Drop Tray into Boiling Water for Excatly 14 seconds
3. Quickly Remove Tray and Shake Off Excess Water
4. Have Patient Bite Into Tray

ECCO--101750 Smart Dental System MTPC

US$ 780.00

ECCO SCANER PARA RX apicales
Con acceso EXTRA software con habilidades para implantologia ,cirugia y multiples estaciones en clinicas grandes

Caracterticas principales:
- Modelo para computadoras
Conexi USB Windows Vista compatible -
- Conexi puerto USB 2.0, funciona 110V o 220V.
- Tama peque: 8 cm, x 7cm x 8cm, peso 400g.
- Pued ser operado por una asistente
- Software de manejo de imenes incluidoFil de OperarNo requiere uso especializado,simplemente contelo al puerto USB de su PC oNotebook, pulse el bot y terminada la tarea.
Paso 1. Conecte el Digitalizador de Radiograf v el puerto de USB.
Paso 2. Ponga la pelula de la Radiograf en la bandeja de carga defrente de la unidad.
Paso 3. Abra el software (incluido en el CD), la imagen aparece alinstante.
Paso 4. Ajuste el brillo ajustando el bot de la unidad, pulse el bot "captura"en el software o simplemente empuje el bot en el tablero del frente de launidad y captura la imagen.
Paso 5. Archive como usted desee .jpg o .bmp

SYSTEM

SOREDEX- 102302 Digora Optime Intraoral System

US$ 12,500.00

DIGORA OPTIME INTRAORAL IMAGING SYSTEM

Superior image quality
Clinical image quality is a result of the whole DIGORA Optime concept. The DIGORA Optime System uses highly sensitive and intelligent Imaging Plate readout technology to achieve high quality images with an exceptionally wide dynamic range. The result is that even small details like 0.06mm root canal files are visible.

In digital imaging, a optimal signal-to-noise ratio is important to create images of the highest quality, too much noise results in a loss of diagnostic information. The DIGORA Optime System is designed with a short light path from the imaging plate to the photomultiplier, which means that a low dose can be used while keeping the noise level low.

EFFICIENT WORKFLOW:
The DIGORA Optime imaging procedure has been designed to be as simple and easy as possible so that workflow in your dental office is more efficient. The DIGORA Optime imaging procedure is fast;
*Imaging plates are as easy to position in the patients
mouth as film
*The readout process is completely automatic
*The readout time is very short
*No additional adapters nor equipment are needed

*Compact Design

*Smart Design
*Quick Readout Time
*Full Daylight Use

EVA DIGITAL X-RAY SYSTEMS (Dentx)

Backed by the proven reliability of tens of thousands of installations, EVA provides more than just great value. This classically styled, rugged sensor is just a few millimeters thin, but delivers crisp, clear radiographs using virtually any intraoral X-ray unit.

EVA's value makes it an ideal choice for any practice - from large installations to even the most value-conscious practices. No other sensor delivers EVA's combination of superior image quality, ease of use and warranty assurance.

-Durable CMOS technology provides superior images using only a fraction of the power required by other digital sensor technologies
-Impact resistant housings are designed to minimize damage from a biting patient
-Sensor size #1 and #2 are similar to traditional films
-Hot swapping sensors between multiple computers offers greater speed, convenience and value
-Service multiple operatories with one sensor using the EVA docking station
-Small, inexpensive docking stations fit in the palm of your hand and make expansion easy
-2-Year warranty for peace of mind
-Made with pride in the USA

ENDO INTRAORAL X-RAY UNITS (Dentx)

Specifically Designed for the Way You Take X-Rays

With the full line of Endos intraoral x-ray units, everything has been designed to maximize your operating efficiency, allowing you to to concentrate on diagnosis and treatment. Endos' state-of-the-art Grid Tube technology dramatically improves the accuracy of each exposure while reducing or eliminating non-diagnostic soft radiation. The quality and craftsmanship of the support arm provides an ease of positioning that perfectly accompanies its stability.

The emission button has been carefully designed for optimal efficiency and is attached to the unit via a 10' (3 m) cord. To accommodate any installation condition, all Endos units may be configured with a remote emission button, allowing the exposure to be taken from the most convenient location.

Endos AC: The Essential Unit
-Compatible with all digital sensor systems
-Manual system - best value for budget and performance

Endos ACP: Optimized Parameters
-Identical to the Endos AC unit, but incorporates a timer for selecting optimized exposure parameters using pre-programmed settings based on patient size and dentition area to be examined.

-Both the Endos AC and ACP models use a smart software algorithm to automatically compensate for any mains voltage fluctuations, thus ensuring stability in image density.

Endos DC: Efficiency Included
-Provides the best image quality with both high sensitivity digital sensors, as well as new faster films
-Incorporates DLC (Dual Low Current) technology, which sets the best exposure current according to the type of receptor
-DC generator offers both greater depth of gray and small detail contrast will all receptors
-Like the Endos ACP, the DC incorporates a timer for selecting optimized exposure parameters using pre-programmed settings based on patient size and dentition area to be examined
-Non-diagnostic soft radiation and patient dose is reduced by DC technology, compared to conventional intraoral units.
-Special safety device eliminates risk of unintended exposures

2 Year Warranty on Parts
Weight: 70lbs - 32Kg - Dimensions: 45L X 24W X 11H

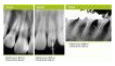
GENORAY- 102303 Portable XRay Unit

US$ 3,350.00

Specifications
- Compared with other existing portable X-ray
- PORT-X II contains high capacity of rechargeable battery. Accordingly, voltage supply cable does not need to be used. Inverter system for High voltage occurrence makes X-ray generating power steady High capacity of rechargeable battery causes the possibility of using PORT-X II in external examination, ambulance and even field operation.
- High-definition LCD graphics show every conditions, photographing condition and action condition. As the result, PORT-X II is able to be used convenient.
- The best quality of image can be simply acquired.
- Genoray Series # GD_05242009
- Reduces 150% convencional radiation
- Port - Includes rechargeable battery
- It can be used for adults or kids
- It can be used with digital sensor
- Moves easily

System Information
PORT-X II generates and controls X-ray in order to acquire images for tooth and jaw.
- It generates X-ray from high voltage electricity into the X-ray tube, which penetrates tooth and jaw and makes X-ray images on receptor. (Chemical film or Digital sensor)
- High capacity enables it wireless, which makes it to store and move very easily
- Battery type of x-ray system, get rid of all cables outside

Technical Specification
- Type High Frequency Inverter
- Power Output 180W
- Tube Voltage 60kV
- Exposure Time Set - 56 Steps (0.01 ~ 2.0 sec) 22.2 VDC
- Number of exam - 100 per full charge
- Main Body - 5.18 Lb (2.35 Kg)
- Warranty 2 years



ECCO-110654 X Ray Unit Mobile

US$ 2,150.00

- Intraoral Radiography X-Ray Equipment
- Control System that allows to reduce the levels of Radiation
- Selection for 70KVp or 60KVp time selection according to the type of patient
- Conventional or Digital Radiography Exposure
- Elity 70 X-Ray will create Radiographs or Excellent Quality
- Automatic or Manual Mode
- Scissor Arm with Range of Movement
- Mobile

ECCO-110653 X Ray Unit Wall Mounted

US$ 1,700.00

- Intraoral Radiography X-Ray Equipment
- Control System that allows to reduce the levels of Radiation
- Selection for 70KVp or 60KVp time selection according to the type of patient
- Conventional or Digital Radiography Exposure
- Elity 70 X-Ray will create Radiographs or Excellent Quality
- Automatic or Manual Mode
- Scissor Arm with Range of Movement
- Wall Mounted
